

ALLIES REPORT ADVANCES MADE AGAINST VON KLUCK WHO GETS RE-ENFORCEMENTS

CLAIM MADE AT PARIS THAT BRITISH-FRENCH FORCES HAVE OCCUPIED PERONNE ON WEST BATTLE LINE.

MAKING STRONG STAND

Kaiser's Forces Offer Determined Resistance and Are Relieved by Fresh Troops—Heavy Fighting on Meuse.

Further successes of the armies of the Allies which are attempting to turn the German right wing are claimed in an official announcement issued at Paris this afternoon. It is stated that the Allies' western wing has advanced considerably and Peronne has been occupied after desperate resistance. Peronne is 75 miles north of Paris and 25 miles north of Lassigny near where an advance by the Allies was announced in yesterday afternoon's official statement. The position of Peronne indicates the movement of the Allies' left wing which is much farther north than their main battle line.

The turning movement of the Franco-British forces first directed against General Von Kluck in an effort to envelope his army appears from unofficial dispatches to have met added resistance from strong German reinforcements.

The Paris announcement says that there has been heavy fighting on the river Meuse at the eastern end of the battle line where the Allies have alternately advanced and retired.

The latest German official advances up to early afternoon state that the Germans were breaking through the Allies' center.

It is officially stated at Tokio that the British north China forces which will cooperate with the Japanese on the attack on Kiau Chow, have landed at Lau Shan Bay.

The troops sailed from Tein-Tsin ostensibly for Wei-Hei-Wei but landed at Lau Shan, neutral territory in China presumably to avoid complications with China.

Cettinje announced that the Montenegrins defeated the Austrians captured Pratcho, a town near Sarajevo, the capital of the Austrian province of Bosnia.

An official communication issued at Petrograd says that following the capture of Jaroslau in Galicia the Russian cavalry is repulsing the Austrian rear guards, inflicting heavy losses.

There is considerable doubt as to the exact situation in the eastern theatre of war as the reports from Petrograd, Vienna and Berlin persistently conflict.

A dispatch from Petrograd to a Paris paper says that the Germans who drove Russian invaders from East Prussia, have in turn been defeated and are evacuating East Prussia to reinforce the line from

Thorn in West Prussia to Kalisz in Russian Poland.

A news dispatch from Paris says that among the prisoners recently arriving at Paris is a general of the staff of General Von Kluck.

It is announced officially at Calcutta that the German cruiser Emden which recently captured several British ships in the bay of Bengal, dropped a few shells while passing into Madras, an important city of British India.

Press dispatches unofficially report that Zeppelin airships, evidently reconnoitering, had been sighted from various points in Jutland, Denmark.

The German submarine U-9, credited by Berlin with having, unaided, destroyed the three British cruisers, had returned unharmed to a German port.

Gunner Dougherty of the Cressy, one of the three ships sunk, insists that he saw five submarines during the attack and that one of the five was sunk by the Cressy's guns.

The German war loan subscription totals 1,970,250,000 mark. The press of Norway is making a deliberate effort to maintain strict neutrality.

The indirect cause of the war is recalled from a report from Amsterdam that the trial of the alleged assassins of the Archduke Francis Ferdinand and his consort will open at Agran on November 5.

Paris, Sept. 24.—The Allies have advanced considerably along their western wing, occupying the town of Peronne despite desperate resistance, according to the official announcement of the French war department this afternoon. At the eastern end of the battle line in France there has been heavy fighting on the river Meuse, the Allies alternating and advancing and retreating.

The formidable force the Germans threw against the Allies' left wing is still flinching, according to the official communication, under the unrelenting blows of the Franco-English battering rams. Even the famous guards who fought the battle of the Marne are unable to stand the pressure and are giving a little more ground every day.

The attack attempted in Lorraine having proved ineffectual, the Germans are now making a fierce drive in the Woerthe district northeast of Verdun. The object no doubt is to cut off the army operating around Nancy, but the Germans already have tried to make an opening between Verdun and Toul, besieging Noyon at the same time. The maneuvers constitute a grave menace to the Allies who are resisting desperately and have thus far repulsed attacks with heavy losses.

That the Germans are losing heavily on their right is also evidenced by the constant arrival here of prisoners and wounded. Early this morning many automobiles were seen with wounded German soldiers being taken to the rear through the streets, but some of these were convalescent, returning from the seashore and rejoining their corps.

Paris Announcement.

The following announcement was made in Paris this afternoon:

"First.—On our left wing between the river Somme and the river Oise our troops have advanced in the direction of Roye. A detachment occupies Peronne and held this position in spite of a spirited attack on the part of the enemy.

"Between the river Oise and the river Aisne the enemy continued to maintain important bodies of troops well entrenched. We have made slight advances to the northwest of Berry-Au-Bac.

"Second.—On the center between Rheims and the Argonne district, the

TURKISH AMBASSADOR REFUSES TO RETRACT

A. RUSTEM BEY INFORMS WILSON HE WILL NOT ALTER ATTITUDE OF PUBLISHED INTERVIEW.

TO LEAVE WASHINGTON

Statement Which Was Objectable to Administration May Cause Serious Diplomatic Complications.

Washington, Sept. 24.—A Rustem Bey, the Turkish ambassador, has informed President Wilson that he does not alter the view he recently expressed in a published interview and will leave the United States within a fortnight.

The announcement of the Turkish ambassador, so unexpected, caused profound sensation in diplomatic circles.

Object to Interview.

The Turkish ambassador's interview was considered practically objectionable by the administration, the president's direction, asked the ambassador to refrain from such expressions.

The Turkish ambassador in his interview had said that the sending of American warships to Turkey in connection with the report of the uprising against Christians would lead to a serious situation in the country.

The ambassador later was interviewed personally and then wrote at length. The president directed Mr. Bryan to say in answer that the statements made by the ambassador were objectionable to the American government, and but for the fact that a tense situation existed in Turkey, which he did not desire to aggravate, the diplomatic propriety committed by the ambassador might otherwise be adjusted for discussion with the Ottoman government.

The president asked whether in view of the situation, the ambassador cared to make any explanation. The Turkish envoy said he did not wish to alter his view and that he would leave in a fortnight.

GERMAN SUBMARINE ESCAPED UNHARMED

Craft Which Sank Three British Cruisers Returns to German Port Entirely Unscathed.

London, Sept. 24.—A dispatch from Amsterdam states that the German submarine U-9, which is credited with blowing up North Sea early Tuesday morning has returned to a German port unharmed.

GERMAN COMMANDER IN FRENCH CAMPAIGN

General von Heeringen.

General von Heeringen, the German commander in the French campaign, is reported to have been seen in the front lines.

The positions are extremely strong by nature and dominating the valleys and towns have been turned into regular fortresses. The line of trenches built with science and the solidity of permanent work, are flanked by flanking trenches, bristling with machine guns, and reinforced by mazes of barbed wire and black houses whose quick fires sweep the whole front. To the rear of these works the heavy artillery is placed in position and from its fire positions have suffered great damage.

"Most of the work on this line was finished while the battle of the Marne was still in progress.

"Attacks and counter attacks succeeded one another while the endgame was being played out of a difficult country. On our right the enemy's army had been seeking to force an opening in the chain of forts between Toul and Verdun.

"The Allies for their part have been progressing slowly upon the enemy's right, pushing up a wedge in the center between Rheims and Verdun. Still the actual battle of the Aisne has not yet begun. There already has been enough fighting to constitute half a dozen battles, but only the preliminary stage of the big struggle has been reached."

RUSS TURN TABLES ON GERMAN FORCES

Car's Forces Driven Back into Russia Make Stand and Defeat Army Which Followed Them.

London, Sept. 24.—The Paris Matin prints a dispatch from Petrograd stating that the Germans who drove General Rennenkampf back into Russia, are reported to have suffered a great defeat at Subir. The Russians have reoccupied Soigal in East Prussia on the Polish frontier. It is stated that the Germans are evacuating Prussia to reinforce the line from Thorn to East Prussia on the border of Poland to Kalisz, a town in Russian Poland.

Official communication has reached London of the appearance of cholera in the Austrian army, according to this intelligence, it is admitted that there are nine cases of cholera among Austrians wounded.

New York, Sept. 24.—Col. Colejewski, the military attaché to the Russian embassy issued today at the Russian consulate here the following statement by his superior at Petrograd:

"Continuing the pursuit of the Austrians our troops have reached the river Vistula, a right tributary of the Vistula, between the San and Cracow, our operations are developing favorably. On the German front our troops are in close contact with the enemy but no battle has as yet been reported."

GERMAN SHIP FIRES ON PORT OF MADRES

Cruiser Emden Bombed City, Setting Fire to Oil Tanks and Inflicting Other Damage.

London, Sept. 24.—A Madras dispatch to the Reuter Telegram company dated Wednesday describes the attack if the German cruiser Emden on the port of Madras.

"The German cruiser Emden appeared off Madras Tuesday evening and shelled the city. Two oil tanks were set alight and are still burning. The telegraph office and some houses on our harbor were also hit, but the damage generally is slight. On our guns replying, the cruiser ceased firing, extinguished her lights and disappeared. A whole engagement lasted 15 minutes.

Report from Calcutta.

Calcutta, Sept. 24.—The papers published an official dispatch stating that the German cruiser Emden, after passing Madras, fired a few shells, but the damage to the city was slight. Only three Indians were killed.

FOUR ITALIAN SHIPS STRIKE COAST MINES

News Agency Reports Three Italian Torpedo Boats and Cruiser Sunk by Hidden Mine.

New York, Sept. 24.—Dow Jones & Company, a Wall street news agency, published the following today on its news ticker:

"Milan, Italy.—The Trieste correspondent of the Corriere Del La Sera reports that three Italian torpedo boats and one torpedo cruiser struck mines off the Dalmatian coast and sank."

POSTERS APPEARING ON WALLS IN BERLIN

"We Want Peace" and "Down With the Kaiser" Appear on Buildings Says Dispatch.

London, Sept. 24.—Despite the watchfulness of the German authorities, says a dispatch from Copenhagen to the London evening news, posters proclaiming "we want peace down with the Kaiser," are appearing on the walls of the buildings in Berlin.

MARCONI WIRELESS STATION MUST CLOSE

Secretary Daniels Orders Branch Company to Close—Failed to Comply With Laws.

Washington, Sept. 24.—Secretary Daniels today ordered the Marconi wireless station at Siasconset, Mass., closed tomorrow, in consequence of the failure of the company to give assurance that it would comply with naval censorship regulations.

CLAIM TRANSFER OF SHIP TO AMERICAN OWNERSHIP GIVES NO IMMUNITY

San Francisco, Sept. 24.—Changing the name of the steamer Alexandria to Sacramento, her flag from German to American, and her ownership from the Kosmos line, a German company, to the Northern & Southern Steamship Company, a California corporation, does not prevent that vessel from being prey of British men of war if she gets outside the three-mile limit, according to A. Carnegie Rose, British consul general here.

PROFESSORS ADDRESS TRADE PRESS DELEGATES

Chicago, Sept. 24.—College professors, editors and advertisers are on the program of the ninth annual three day convention of the Federation of Trade Press Associations which opened in the Congress hotel today. The annual banquet will be held tomorrow night.

Officers will be elected at the closing session the following day.

ECHOES OF BANNER CELEBRATION HEARD

Springfield, N. J., Sept. 24.—Echoes of the Baltimore celebration of the one hundredth anniversary of the writing of the "Star Spangled Banner" by Francis Scott Key were heard today at the first meeting of the New Jersey Society, Daughters of the War of 1912, held in the Presbyterian church.

ACID FUMES CHOKE HUNDREDS IN DEPOT

Hudson River. Terminal Scene When Carboy Spills—People Drop Long After Inhaling Fumes.

Jersey City, N. J., Sept. 24.—Ten gallons of nitric acid spilled from a carboy to the floor of the Erie railroad station during the commuter's rush hour today drove off fumes which choked scores of persons to unconsciousness, made hundreds ill, stopped traffic on the Hudson terminal for an hour, and packed the station with thousands who verged panic till a strong force of police quelled them.

Not one of the throng sweeping through the station was touched by the acid as it bubbled and boiled over the stone flooring. Two or three persons collapsed immediately, but in most of the many cases of unconsciousness the persons acted as a slow agent. In some cases women were struck in the face half an hour after inhaling the fumes. In perhaps forty cases of persons into whose lungs the fumes had been inhaled for several minutes, suddenly fell over unconscious.

LENROOT OBJECTS TO GAG TIME RULE

Wisconsin Representative in Congress Says Underwood Ruling on Par With Joe Cannon's.

Washington, Sept. 24.—Debates on the war revenue bill began in the house today under a rule providing for seven hours of discussion. Representative Lenroot of Wisconsin, republican, charged that the rule was worse than any resorted to under Speaker Cannon. "An indefensible rule which would allow a man to tax the American people \$105,000,000, I see no difference between the gag rule under Cannonism and under Underwoodism," he said.

IMPORTANT RAILWAY CENTER CAPTURED

Catarric, Austria Seaport, Blocked by French and British Warships.

London, Sept. 24.—A dispatch from Rome, the correspondent of the Exchange Telegraph company says that a message from Cetinje brings the news that Montenegro forces have captured Montak, a town which controls the only railroad in the southern part of Herzegovina.

"As Catarric, the Austrian seaport in Dalmatia, is blocked on the seaward side by the Franco-British fleet, it is now entirely isolated from the outer world."

BRITISH DETACHMENT WILL AID JAPANESE

Twelve Hundred Soldiers Landed Near Lau Chan Yesterday—To Attack German Defenses.

Peking, Sept. 24.—A British detachment numbering 800 South Wales border men and 400 Indian Sikhs, were landed near Lau Chan, China, yesterday. It is expected that Anglo-Japanese attack on the first line of the Tsing Tau defenses will begin tomorrow or Saturday.

LARGE NUMBER OF CANADIANS ENLIST

32,000 Volunteers Have Gone to the Front, Says Labor Minister Crothers.

St. John, N. B., Sept. 24.—T. W. Crothers, minister of labor of the Dominion of Canada, announced today that 32,000 Canadian volunteers "have gone to the front a day or two ago."

Mr. Crothers made this announcement in a speech before the Canadian trades and labor congress in convention here.

RUSSIAN DIPLOMAT TO FIGHT GERMANS

San Francisco, Sept. 24.—Advises received here from Haruki and Yamawaki by the Japanese commissioner to the Panama Pacific exposition say that Japan is proceeding with her preparation for participation in the exhibit. Japan's exhibit, he said, will be of increased excellence because of the inability of the European nations at war to participate.

PAINTER SCHULBECK IS WOUNDED NEAR AISNE

Berlin, Sept. 24.—The well known German painter, Arthur Schulbeck, now serving as lieutenant of Hussars, was wounded by a piece of shrapnel while fighting on the river Aisne. He had been given the iron cross. Herr Schulbeck has painted several portraits of the crown prince of Germany. His wife is an American woman, formerly Mrs. Heil of Milwaukee.

This Season's Silks

More American silks will be worn this season than ever before. And we have no reason to be ashamed of the showing they will make. The weaves are good, the colors sure, the patterns attractive. The average American woman cannot help but feel a thrill of patriotism as she sees what beautiful fabrics our own artisans have wrought. Where to see them at their best? You will find the advertising columns a safe, sure and pleasant guide.

CARRANZA PROMISES TO MAKE NO ATTACK ON VILLA'S TROOPS

GENERAL VILLA MAKES HASTE TO ASSEMBLE TROOPS, INDICATING POSSIBLE CONFLICT.

Apprehension Felt at Washington Following New Mexican Crisis, But Wilson Announces No Change in Policy.

Washington, Sept. 24.—General Carranza has informed the United States government that he will not attack General Villa, but will order his forces to be on the defensive and resist attacks.

The first communication declared the national convention he had scheduled on October 1, when a provisional government would be established which he hoped would be satisfactory to the United States.

Efforts were made to conceal the break, but news of it leaked out in circles, causing a sensation among military men. It was regarded as most serious. General Pablo Gonzalez, chief of the army of the east, has telegraphed Villa an appeal which gives numerous reasons why Villa should reconsider his actions and remain friendly.

Apprehension at Washington. General Villa's open declaration of General Carranza's authority as first chief of the constitutional army in Mexico, spread a similar feeling in official circles today.

While officials admitted that the situation was a threatening one, they were not without hope that the rupture would not lead to a physical clash.

It is officially stated at the White House today that the latest troubles between General Carranza and General Villa would not alter the plans of the United States to withdraw troops from Vera Cruz. No date has been fixed for moving the troops.

President Wilson understood to take the position that Carranza and Villa must settle their differences without interference from the United States, and that the presence of the American troops at Vera Cruz would not solve the difficulty.

According to official information here, Villa is willing to have Carranza become provisional president, or resign now, and run for the presidency later. They have been informed that Villa outlined in official circles today. President Wilson will continue to pursue a watchful waiting policy and allow the Mexicans to work out their own destiny providing that rights of foreigners are not transgressed.

May Avoid Break.

Mexico City, Sept. 24.—Efforts are being made here to patch up the break between Carranza and Villa, it was announced today.

Villa Gathers Troops.

El Paso, Tex., Sept. 24.—If General Villa's revolt against the Carranza government succeeds, the first battle probably will occur at the old battle ground of either Torreon or Zacatecas.

General Villa, forced to abandon his expedition in assistance of the Maxistons revolts, today rushed his forces south from Juarez and Chihuahua city to meet what was reported as a strong force of Carranza troops moving north from Aguas Calientes and Zacatecas. All was quiet at Chihuahua.

According to official estimate, Villa controls nearly 40,000 troops. They are mostly Yaqui Indians. Efforts are being made by the Carranza elements who have left the service of the Mayors, a rival tribe who outnumbered the Yaqui in the west coast country. Villa also will probably be able to recruit many troops from Durango states.

Carranza's Strength.

Carranza's forces comprise the unified force of General Pablo Gonzalez, his eastern divisional commander, probably outnumbering about 30,000 men, and those of the west coast troops under Obregon.

It was asserted that all of the west coast forces with the exception of those of Carranza, would stand to the Carranza government.

JAPAN PREPARING ITS FAIR EXHIBIT

San Francisco, Sept. 24.—Advises received here from Haruki and Yamawaki by the Japanese commissioner to the Panama Pacific exposition say that Japan is proceeding with her preparation for participation in the exhibit. Japan's exhibit, he said, will be of increased excellence because of the inability of the European nations at war to participate.

PAINTER SCHULBECK IS WOUNDED NEAR AISNE

Berlin, Sept. 24.—The well known German painter, Arthur Schulbeck, now serving as lieutenant of Hussars, was wounded by a piece of shrapnel while fighting on the river Aisne. He had been given the iron cross. Herr Schulbeck has painted several portraits of the crown prince of Germany. His wife is an American woman, formerly Mrs. Heil of Milwaukee.

RUINED LOUVAIN AND GERMAN TROOPS PASSING THROUGH AFTER TOWN'S DESTRUCTION

Here is a view of the ruins of the celebrated University at Louvain after the German invasion. This famous old college had a standing in Europe somewhat similar to the standing of Harvard in America, and its library, completely destroyed by the Germans, was priceless.

The town, which was one of the show places of Europe, is today a scene of desolation. Its people have been scattered to the four winds, and of all its beautiful and historic buildings only the celebrated Hotel de Ville remains intact. Louvain was destroyed because the Germans alleged that some of the citizens fired on German soldiers. This the Belgians deny.

Janesville Combined Merchants Fall Style Show and Opening, October First. Second, Third.

You're cordially invited to view our display of Red Cross Shoes during the present week, which is known as

## "What a Difference A FLORENCE Heater Makes!"

There's real enjoyment in having a home these days, if you but have a Florence Oil Heater to "take the chill off," when the coal heater is not in use.  
And there's such a peculiar advantage in the Florence Heater. It really is a little hot air furnace all by itself, built in such a way as to prevent the smoke and odor you've heard of in the other kinds. It is all in the double central draft feature of the Florence make. They heat the air without burning it.  
They are beautiful, too, to look at. Suppose you let us show you?

Prices

If it is Good Hardware, McNamara Has it.

As to the Man "Self-Made." A pathologist of standing inveighs against the "self-made man" in terms that will be surprising to many. "The self-made man," he says, "is often in the process of degeneration, and the first evidence of degeneracy in a family is the selfishness and meanness or the cunning, avarice and meanest guile, by which the self-made man succeeds in amassing a fortune for his still more degenerate children to spend in gratifying their selfish desires." There is another side to the matter, and Thoreau saw it when he said that the man who had acquired wealth would insist on having his sons educated, and thus he would become the real founder of a family—Springfield Republican.

## PHILIPP REITERATES PLATFORM OF SANITY

REPUBLICAN CANDIDATE MAKES FIRST SPEECH SINCE PRIMARY AT ST. CROIX COUNTY FAIR.

## RENEWS FIRST PROMISE

Declares in Favor of Business Administration, Economy and Against Proposed Constitutional Amendments.

[SPECIAL TO THE GAZETTE.]  
Glenwood, Wis., Sept. 24.—Emanuel L. Philipp, republican candidate for governor, speaking at the St. Croix county fair here Wednesday, in his initial address following the primary election, reiterated his stand for curtailment of expenses in the administration of the state department, attacking the proposed constitutional amendments and while endorsing the entire platform adopted by the republican convention, declared his belief that the primary system is undemocratic and productive of bossism.

He denied that he had any intention of repealing laws beneficial to the people of the state.

Always Been a Progressive.  
"I am and I always have been a progressive," asserted Candidate Philipp. "However, in our state the word has a political meaning. It means a state government consisting of nearly 6,000 employees and fifty-two or more boards and commissions and an annual expense to the tax payers of from \$15,000,000 to \$18,000,000.

"The cry will be raised that I am a reactionary and that I am trying to repeal laws beneficial to the people. Such statements are the invention of politicians, to be used for a purpose. I have no thought or desire to deprive the people of the state of Wisconsin of any service they are now receiving from the state government that is beneficial and is worth what it costs.

Reiterates Primary Promise.  
Mr. Philipp reiterated his promise of a business administration, of strict economy in every department of state government, he said in part:

"In view of the fact that the recent platform convention was called out without the intervention of a party, it is gratifying to note that its deliberations were controlled by a desire to meet the wishes of the people and that those principles which I fought for during the primary campaign were met in a liberal spirit and were generally adopted. Insofar as the platform deals with the future conduct of the state's affairs, it is sound. The platform of the republican party of June 23 upon which I made my primary campaign.

"The laws that are referred to in the platform as being amendments of the republican party have my approval, and I endorsed most of them during my primary campaign.

More Emphatic Than Platform.  
"In more respects, and notably in the matter of state economy, the platform convention did not express itself as firmly as I did in my primary campaign. It also refused to adopt views on the primary laws and upon various constitutional amendments that will be submitted to the people in November. I stated that I would yield to no compromise of any principle and that I advocated in the primary, and that my primary platform is my word to the people, and must stand.

"The people demand lower taxes and an election to office at this time is a pledge to comply with the demand.

In my primary campaign I urged that unnecessary commissions be abolished. I maintained that the delegation of power to boards and commissions which are out of reach of the people is building up a vast, meddlesome and dangerous bureaucracy that is destructive of the fundamental principles of government and the American principle of home rule. The platform convention was unanimous in adopting a resolution the same as that which I urged during the primary campaign.

Educational Institutions.  
"I offered a certain policy in regard to our state educational institutions. The policy adopted by our platform convention is substantially the same. It does not go quite so far in its references to the university. I want to reiterate here that I am a friend of the university. However, its expenses must be cut down to a sum that the people can afford to pay. I maintain that we cannot spend such a large sum of money annually upon a single educational institution without giving the balance of the schools or making taxes exorbitant.

"I believe there should be a more systematic management of our educational institutions. There should be fewer boards and a concentrated responsibility. I maintain these institutions should be placed in the hands of a single board which will devote its entire time to the management of these schools so that the money that is available for educational purposes shall be more equitably distributed. The university as well as other state schools must be kept out of politics.

Public Highways.  
"I have advocated a revision of our laws governing the building of public highways. I believe the present law is unwise, and the system now in use extravagant. I urged local control of contractors and the engineering features be supplied by the state. The platform convention reiterates this charge.

"The laws governing water powers have had the effect of absolutely stopping the further development of that resource. I am opposed to the surrender of the state of the people's right and title to those properties.

Primary Law.  
The convention of June 23 declared in opposition to the present primary law urging that it be amended as to make party conventions possible, retaining for the people the right of electing delegates to such conventions by Australian ballot. Party conventions are necessary that people may assemble and dictate and adopt their principles.

"I made two propositions to the platform convention upon the primary question. First, I proposed that the question of whether we shall continue under the primary system be referred to the people by a referendum. This proposal being rejected, I made another proposition that we amend the primary law so as to establish a platform convention where delegates elected by the people, by the Australian ballot, would assemble in convention and adopt a platform and nominations, however, to be made at this time. This was also rejected.

Constitutional Amendments.  
"A number of amendments to our state constitution will be submitted to the people at the November election. The first proposes to change the method on amending the constitution, providing that the passage by one legislature shall be sufficient before submitting to a vote of the people. The evils that may follow a sys-

## CARL KELLER WEDS FT. ATKINSON GIRL

Son of Mrs. J. C. Keller of This City Was Married to Miss Cora Marlatt on Monday Evening.

A very pretty wedding took place on Monday evening at the home of Charles Marlatt in Fort Atkinson, when his daughter Cora, was united in marriage to Carl J. Keller, son of Mrs. J. C. Keller of this city. The ceremony was performed by Rev. Hazen of the Congregational church of Fort Atkinson, at eight o'clock, in the presence of intimate friends and relatives.

Allen Dearborn of this city acted as best man, while Miss Meta Becker of Fort Atkinson was bridesmaid. The groom is well known in this city. He was graduated from the Fort Atkinson Military Academy at Delafield last June, after having taken three years of military work in a cadet school in New Mexico. He also attended the Janesville high school for three years.

The bride is a prominent young lady in Fort Atkinson, having recently graduated from the Milwaukee Downer College. Previously, she completed a course in the Fort Atkinson high school.

The couple are in the city spending a few days at the groom's mother's home, 218 South Wisconsin street. They will return to Fort Atkinson early next week, where they will make their home. The groom is employed at the Jones' dairy farm of that city.

## CONNORS' SYMPATHY LIES WITH GERMANY

Noted Local Pianist Returned Last Evening and Giving Brief Sketch of Country at Present.

Frank Connors, son of Mr. and Mrs. I. F. Connors, Cherry street who has been studying with Josef Lahviane, noted Russian pianist in Berlin, and who has been in Germany during the present war arrived in Janesville last evening.

Today he graphically described to his many friends the lights and shadows of his hurried flight home, ward and the alertness of the Germans in grasping every opportunity to improve their fighting craft.

"A German official," said to the local boy, "member of the American Luncheon club in Berlin, opened my eyes one day by telling me of two inventions that have been made for raising the efficiency of the dreaded Zeppelins since the outbreak of the war. One is the discovery of a gas lighter than hydrogen, the other of a fabric for covering the gas bag that is as bullet proof as steel and yet weighs less than aluminum. The Germans are all confident of the possibilities of their Zeppelin fleet.

"Although of Irish descent, I feel my sympathies lie with the German cause," he said. "I saw enough to convince me that the reported outrages by German troops were highly exaggerated. I am in possession of a copy of the letter written by Margaret Mueller, head of the German department at Wellesley college, to her friends, in which she describes the cruelties that are being and have been committed by the German soldiers. She tells of German soldiers found with eyes gouged out, feet and arms cut off, teeth knocked in and bodies burnt with oil; also of German women who have been and are being chained and crashed to death upon the sidewalks.

"You practically have to stand up all the way, and you're lucky to even get a chance to do that when you travel in Germany," he said. "On our way to Rotterdam from Berlin the trip took us 37 hours when it ordinarily takes only 12. All available sleeping cars have been pressed into service for carrying wounded soldiers to the hospitals. Ambassador Girard advised every American citizen to quit the country before Sept. 1, saying that after that time it might be impossible to leave."

NAME SUPERVISORS AROUND FOOTVILLE

Three Men Appointed in That Region to Take Charge of Corn Contest Details.

Secretary W. J. McDowell and L. A. Markham, field manager in the Commercial club corn contest, made an inspection trip west of this city as far as Fultville on Wednesday. They appointed three supervisors who will have charge of the details of harvest for the boys entered in that section of the country. Clayton E. Fisher was named for the East Center district; W. C. Miller for West Center, and Floyd Johnson for the region near Fultville. Two more regions remain without supervisors, in the vicinity of Clinton and Shropshire and the vicinity of Edgerton. These sections will be visited the latter part of this week.

## ANNUAL PENDLETON ROUNDUP IS OPENED

[SPECIAL TO THE GAZETTE.]  
Pendleton, Ore., Sept. 24.—Astride a plunging race today, Governor Oswald West, followed by nearly 500 cowboys and cowgirls, and scores of Indians, picturesque in war paint and aboriginal finery, all similarly mounted, rode into the main arena here today and the Round-up, held annually by the city of Pendleton to depict life on the frontier days was on.

Fifty thousand spectators crowded the grandstands and host of amusement at the feats of horsemanship. There was the rush of the relay race, the dash of pony express, the swish of the long lariat as it whirled through the air and settles over the horns of the wild Texas steer, the struggle of the cowboy to throw the steer bareheaded in the bull-dogging contests and the Indians fighting to keep their seats on the backs of bucking bronchos.

The cowgirls, most of them not yet out of their teens, rode the most vicious horses, roped and headed the wildest steers and bulldozed the long horns with as easy grace as the old-time male range riders.

A feature of the day was a Round-up between Mrs. "Happy Jack" Hawn and Lucile Mulhall, both claimants of the prize for the championship broncho busting title. A side line of \$1,000 has been posted for this event.

Chin as Point of Beauty.  
The habit of absent minded fingerling the chin is imprudent because in doing so the skin may be stretched and the pores unduly enlarged, inducing wrinkles and extraneous matter to gather. After the age of twenty-two or twenty-three years it is well to watch with jealous care this particular portion of the face.

## ABOLISH ATHLETICS FOLLOWING OUTRAGES

DISCREDITABLE ACTS CASTING RIDICULE UPON HIGH SCHOOL ARE CAUSE FOR MOVE.

## TAKE SEVERE ACTION

Principal Shearor Takes Decided Stand in Matter Until Students Can Give Assurance of Good Behavior.

All athletic activities at the Janesville high school have been abolished as the result of recent outrages for which members of the student body are suspected of being responsible. Principal J. T. Shearor, made plain the attitude of the school authorities in the matter today and although admitting that the stand taken was a severe one, declared that it was evidently the only way of blotting out the mass meeting of the boys, and came upon the school by students and others.

Protest "Dry" Schedule.  
Three events perpetrated by youths in an attempt to ridicule the "dry" schedule, are said to be the direct cause for the action taken by the school authorities. On Sunday night last it is supposed the first act was committed, for early Monday morning the hanging of a telephone cable in front of the school, a large nail keg, with "beer" painted in large letters upon it. On Monday afternoon, Principal Shearor called a mass meeting of the boys, and fully explained the nonsense of such ridicule, stating that the acts of this nature not only ridicule the school and the faculty, but that they also cast reflections upon individual students who assume blame for the wrongdoings of a year ago. He asked the students to forget and ignore this foolish act, but in addition strongly emphasized that if another such act was committed, there would be no hesitation about abolishing athletics in the school for all time.

The first case was traced and sifted down, until it was learned that high school students were responsible. Three youths confessed to Principal Shearor that they did it merely as a joke, and after a thorough lecture the case was dropped, with the warning that the students and the authorities that no such trickery would again occur.

It was not fifteen hours after the first keg was taken down, that a real beer keg was suspended from the top of the school building. Several high school boys noticed the barrel on their way to school Tuesday morning suspected the work of outsiders, for they believed that no high school student would dare attempt such an undertaking after the meeting on Monday afternoon. They took the keg down and reported the act to the school authorities. The case was soon cleared up, when the offenders reported their action to Principal Shearor of their own free will. This case was cleaned up with little trouble.

But here was still a third case to be acted upon. Yesterday morning upon entering the science room, Prof. Arbutnot discovered two broken windows in the rear of the room, and upon closer investigation found broken into fragments upon the floor, two beer bottles. The bottles had evidently been thrown through the window from the outside, the act having been undoubtedly committed on Tuesday night.

There was no hesitation on the part of the students, to attempt to clear up this mystery, for Principal Shearor's office was filled with indignant students shortly after school opened, each being in earnest to find out what the attitude of the authorities was and how they could aid in clearing up the matter. Capt. Leslie Stewart asked Mr. Shearor if he might call a mass meeting at the close of school of all the boys in the building. Permission was granted him, and at four o'clock, the boys of the school gathered together in the assembly room in conference. The meeting was led by Captain Stewart, Allen Dearborn, Harry Fuchs, Harold Stickney and Victor Hemming. The students drew up resolutions promising to investigate the matter, and if it could be cleared up satisfactorily so as to warrant the return of athletics to the school. All the boys pledged themselves to support the school and its policy, and the meeting was adjourned.

As athletic activities had automatically been abolished, the football team held no practice yesterday, and the gridiron warriors' business for themselves with the mystery of "who threw the beer bottles." Several individuals, to whom strong evidence pointed, were Prof. Shearor last night in his office, but denied having taken any part whatsoever in the act. To date the matter is unsettled, although evidence is said to be strong against certain individuals, who students believe will contest.

Boys Take a Stand.  
Principal Shearor said today, "The high school boys, two hundred strong, have pledged themselves to act in favor of the school in this matter. I am confident that they will stand for the school, and against such actions. They are determined to show that they are not the ones wholly to blame for the wrongs committed in the past, or in the present, but are taking out as a body to show the school authorities and school board, as well as the community that they stand for what is right. They are determined to free the high school from any blame in the matter, and all have a decided notion as to the parties to be punished.

"We have abolished athletics, because we believe it to be the direct cause of the discredit acts committed so abundantly in the past. The school stands for education primarily, and not for athletics. Athletic activities are merely a side-line, and if the side-line is to involve such objectionable features, then it is better to abandon that side-line altogether.

"The school is taking a severe stand in the matter. There is a possibility of athletics being brought back again, but only under the best condition. When we can find out that the school students positively were not

connected with this third case, and that the entire student body is really sincere in its opposition to these underhanded attacks, then athletics will be resumed. As I said before, I have confidence that the students are going to clear up the mystery in a very short space of time."

Stuffed Cats Scare Birds.  
A novel method of scaring away birds has been adopted by a Kentish (England) farmer. He has killed a number of cats, had them stuffed and placed them in various attitudes among the branches of the fruit trees in his orchard.

FREIGHT CAR SMASHES INTO FREIGHT DEPOT PLATFORM; THREE ESCAPE INJURIES

[SPECIAL TO THE GAZETTE.]

Evansville, Sept. 24.—A wreck occurred at the depot Wednesday morning. The switch train struck an improperly fastened switch and threw two cars from the track, one crashing into the freight depot platform. It was a narrow escape for the agent and cashier, and also for the brakeman, who leaped from the car just in time.

Rev. McDermott and mother have returned from a several days' trip to Milwaukee where they attended the funeral of a cousin.

Miss Edith Hyne left yesterday for Janesville where she will spend a few days with her mother.

Mrs. Gertrude Murphy spent the week-end at Brookline with her parents.

Mrs. A. K. Dayton returns to her home at Oak Park, Sunday after a six weeks' visit with her parents, Mr. and Mrs. George Dell.

The Congregational society is arranging for a reception for the school teachers at the church Friday evening.

## SPORTS

### HARVARD LOOKS GOOD TO REPEAT HONORS

King Football Will Soon Reign Over Sport World—Sport News by Hal Sheridan.

(SPECIAL TO THE GAZETTE.)  
New York, Sept. 24.—Old King Football is about to mount the sport throne. He is collecting his reserves throughout the country and already has engaged in many slight skirmishes with his ancient enemy, Czar Baseball. In all of the outlying posts Football's forces are scoring heavily. Among the big centers, though, Baseball still holds the fort.

Not until after the world's series stuff does King Football expect to reign supreme. He concedes Czar Baseball a lead on space in the sporting pages until after Blackmen score their usual full victory, but after that he expects to come into his own with a vengeance.

The football outlook around the east this year is unusually interesting. Yale occupies the spotlight, not because it is expected to "clean up" this fall, but because Frank Hinky is back to coach old Eli's pigskin warriors. The prospect of this former blue star putting in a winning team this year is very doubtful. The task is too great, in the minds of football critics.

But the Hinky spirit, as it is remembered by ones who saw that famous star in action in the old days, is something to be reckoned with and the seemingly impossible may be accomplished. Hinky's efforts, at any rate, will be closely watched.

In the preliminary work to date, Hinky has tried out a large number of candidates. His policy seems to be that every man who reports going to get a chance. He seems to want to see for himself what material he has on hand. Only the three players who were regarded as regulars are available for Hinky. They are Captain Talbot, Half Back Carroll Knowles and Quarter Back Aleck Wilson.

Hinky is being assisted at present by Dr. Billy Bull, who has charge of all the kicking candidates. "Doc" Cornish, who is directing the quarter back aspirants, and Billy Marting, who is showing the centers the line points.

Harvard's candidates reported only last week to Coach Percy D. Haughton at Cambridge. No summer practice was held at all, although the Crimson believed to face an unusually hard schedule this fall. A few of the veterans spent a few days with Coach Haughton before reporting, however.

Harvard's sensational leader, Chas. Beckley, will lead the Crimson eleven this fall. With him there will be

eight others who were rated as regulars last fall. The backfield will be the same as last year unless some of the new men show enough of ability to warrant displacing one of the veterans. Logan, quarter back, and Bradley and Mahan, half backs, are all back. Pencock, Cowan and Trumbull, guards; Soucy, center, and Hardwick, end, all reported for practice. The latter is declared to be one of the best all-around men on the gridiron who ever wore a Crimson jersey.

Trumbull, it is believed, will be made into a tackle this year. He has had two years' experience with the Varsity. Coolidge, beaten out last year by O'Brien for one of the end positions, is expected to be Hardwick's running mate this fall. This leaves one of the tackle positions to be filled from among the flock of candidates that turned out at Haughton's call.

The Crimson has a tough schedule this fall, with a meeting with "Hurricane" Yost's Michigan eleven besides the usual quota of "football" affairs. Haughton will have to pay special attention to Yost's men, as the Michigan coach will direct his efforts all season to the game with Harvard at the Stadium.

Washington and Jefferson will be a contender for "championship" honors this year. The "Generals" are slated to meet both Harvard and Yale.

Princeton is declared to have lost the services of one who was to be a bulwark of strength there this year—W. Swart. He put up a slashing game for the Tigers last fall and was being counted heavily this year.

Swart, while superintending some building work, was badly injured a couple of weeks ago. Doctors say that he will not be in condition to play football this year.

**BRAVES LEAD BY SIX GAMES; FLAG CERTAIN**

Leaders Divide With Reds Yesterday, While Giants Drop Two to Cards—Dope Favors Boston.

It is not a question today of whether the Giants have a chance for the National league flag, but it is a question of just how many games the Braves will finish ahead of the McGrawites. Unquestionably, the Braves are the greatest ball club of the year, and by virtue of dividing a double bill with the Reds yesterday, and the Giants losing two to the Cards, are now six full games from the approaching Giants, or slipping Giants, just as you may call them.

Tesreau and Marquand, two of McGraw's dependable hurlers, fell back yesterday each taking a defeat easily. On the other hand, the Boston hurlers did exceptionally good work. James won his game, while Davis lost a college pitcher's battle to Lear, a Red recruit. Same schedule today.

**STANDINGS OF THE TEAMS.**

**GIANT CASTOFF IS TWIRLER OF CLASS**

Definition.  
Fool—the other fellow.

**Sport Snap Shots**

World's baseball championship series have always been occasions for matchless pitching. It is then that a fan sees the highest class twirling our national game can offer and a glance at the performances of past years shows that the pitching in the big fall series has always been especially marvellous. It would be interesting if it could be determined who is the greatest world's series pitcher of all time. Combs of the Athletics leads the list in the matter of victories, having won four and lost none. Mathewson with the Giants leads all others in shut-outs. Chief Bender of the Athletics has pitched more few-hit games than any other. These are pitchers who have pitched at least three world's series games. Radbourne, Brown, McCormick, Walsh and Plank have all pitched two-hit games. King, Crane, Dineen, Overmire, Bender, Combs and Eddien have all pitched three-hit games. The real world's series stars are among these, some of whom saw service in the early days. It isn't unlikely that were there a palm to be bestowed on the go to either Combs or Matty. Even so the question as to which of them all is really the greatest world's series pitcher would be pretty hard to settle.

The many fans who are worrying over Walter Johnson's start for the slide may be right or wrong in the matter. No one seems to be quite sure whether Walter is reaching his last days or not, but the truth remains that he has not been this year the pitcher that he was of yore. Also every batter in the league agrees that he has been much easier to hit this season than ever before. It has also been seen that many times this summer he has lacked the reserve strength in the pinches that was his of yore. There are many explanations for his slump. Many American league players insist that Clark Grimes urged Johnson to change his style and that this has slowed him up. Then again it is pointed out that batters are coming to fear his steam less and are more willing to wade to connect. However it may be, it is clear that Johnson has faded some, though he may yet surprise one and all next year by showing all his old-time class.

Muggsy McGraw has a great aversion to beans in any form. No one has ever known him to order them in a restaurant. And the sight of a bunch of them spilled, it is thought, will not irradiate his map with pleasure.

There seems to be two races in the National League. Four teams are fighting for the head of the list and the other four are fighting bravely for the bottom.

For as mild and docile a bunch as the St. Louis "Farmers" seems to be, hardly a fit name.

### CARDINALS TO MEET ALBANY NINE HERE

Titlie Comes Back For Second Game Against Jamesville Team Sunday Afternoon Here.

The Jamesville Cardinals for the second time of the season will meet the Albany nine Sunday at the Assocation diamond just to show the vil-lagers that the victory two weeks ago was not a fluke but a really dyed-in-wool win. Titlie, the famed slab artist whom the Cards trounced seven to six in a ninth inning rally will

again hook up with Crandall in a slab duel. Evidently this game was a bitter pill for Mr. Titlie to take, after his 5-21 flogging down at Belvidere with the 465 Nationals, for he is coming back Sunday to even the score with the Cards. Last Sunday Titlie pitched shut out ball for the Belvidere team, 5-1, by defeating the strong Union nine seven to nothing. Titlie has also used the whitewash brush over the Van Coits of Beloit, who are now hanging on with an eye lash chance of 460 defeating the North Ends for the 432 lost title, a couple of Sundays ago.

The defensive strength of the visitors nine will also be increased for Sunday's game and dire things are threatened to the local nine. If Crandall hurls the game against Albany that he showed the Racine nine last Sunday, there should be a new strike out record hung up for this neck of the woods. It appears the more Crandall works the better he gets and the Cards are confident he will best Titlie Sunday. A new player may be put into the game by the Cardinals next Sunday, and if he is inserted into the line-up the locals will have another three hundred hit-ter and a real ball player.

The victory last Sunday has inspired the Cardinals to further hope of finishing the season with a clear record and clinching the title for this district. While the entire team last Sunday was not made up of state league players, there were enough of the veterans with stellar Racine city players to form a high class nine. Lentz, the southpaw slabman who works after the sixth inning, is from Marshfield and will go with Racine next year, providing the league lives. After the game Palmer, after watching Crandall work closely, stated, "That kid should be in the league next year." In fact Crandall has showed enough stuff for the state league and it is said he turned down several minor offers, preferring to teach school at Neilsville for the present at least.

**AMUSEMENTS**

**AT THE MYERS.**

Starting with tomorrow, matinee, the second vaudeville engagement of the season will hold the boards for three days, matinee and evening. The three Astellas will appear as Knock about Acrobats of the comedy order. Earl & Jennings are billed to appear as "Singers of Songs." Allie Leslie Hasson, eccentric comedian, will furnish laughter for the audience. The vaudeville attractions which come to Myers Theatre are secured from the Western Vaudeville Managers' Association and are the best acts that that well known booking agency places. The opening attractions a week ago gave eminent satisfaction and if the standard of the attractions are kept up Myers theatre should be favored with large attendances throughout the coming season. A full orchestra is an added feature. Friday night "The Sunset Tide," the episode in that remarkable serial picture "The Trey O' Hearts," will be thrown on the screen. The photography in this picture is remarkably clear and each detail is brought out in sharp relief. The action of the plot is exceedingly rapid, there is something doing in every foot of film. The printed story appears serially in the Gazette each Saturday evening.

**AT THE APOLLO.**

A Chinese Harry Lauder is announced for the Apollo for the end of the week. Lee Tung Foo, the only Chinese baritone, comes to Jamesville heralded by press notices from this country and London. At Keith's in Boston, he was proclaimed the "find of the season." The Boston Traveler states:

"From the moment Lee Tung Foo marches out upon the stage singing his Chiefton Song till he has left it after several encores, Keith's patrons this week sit and wonder at the versatility of this 'find of the season.'"

Another big act is Lessick, Anita & Co., novelty jugglers. The act consists of a man, a girl and a monkey and judging from the cleverness of this monkey one could almost say the act consists of three people. Werden and Gearin present a spectacular songaigue.

offering supper Friday, Sept. 25, beginning at 5:30 until all are served. D. W. North is in Black River Falls on business.

Mr. and Mrs. John Grace of Columbus, Mrs. Will Ford and daughter of Jamesville, Miss Stella Farrington and John Farrington and Mr. and Mrs. Dan Devine and family helped Mrs. May Devine celebrate her 84th birthday yesterday.

Mr. and Mrs. L. W. Hutson announce the arrival of a baby boy, born yesterday morning.

Mr. and Mrs. William Barrett, Hugh Sweeney and the Misses Gertrude and Josephine Nichols of Stoughton attended the Elkhorn fair yesterday.

The fire department was called out the second time yesterday, about noon, to extinguish a blaze on the roof of W. W. Drake's residence. Very little damage was done.

Miss Etta Lintvedt, who is teaching at Sextonville, is home during the Elkhorn county fair.

Mrs. P. C. Brown and daughter, Bernice, spent today in Jamesville.

Isaac Spike attended the Elkhorn fair today.

Miss Leona Post spent today in Chicago.

Mrs. L. W. Towne and daughter, Dorothy, went to Chicago today to spend a few days.

Mrs. Hugh McInnis visited friends in Jamesville today.

Mrs. G. Underhill and Mrs. O. Janson and son are spending a few days in Chicago with friends.

**YOU know, all tobacco users know what is the matter with ordinary chewing tobacco!**

Everywhere men are saying to their friends that "Right-Cut" is the Real Tobacco Chew.

Pure, mellow, full-bodied tobacco—seasoned and sweetened just enough.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how tobacco taste comes, how few chews you take to tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short and so that you won't have to grind on it with your teeth. Grinding on ordinary tobacco makes you spit too much.

Notice how the salt brings out the rich tobacco taste in the mouth.

One small chew takes the place of two big chews of the old kind.

Total	197078	

197078 divided by 30 equals 6569.26. This is a correct report of the circulation of the Janesville Daily Gazette for August, 1914, and represents the actual number of papers printed and circulated.

H. H. BLISS Mgr.  
Subscribed and sworn to before me this first day of September, 1914.  
(Seal)  
M. A. FISHER,  
Notary Public.  
My commission expires July 2, 1916.

## WHERE MR. PHILIPP STANDS.

The platform adopted by the republicans at the recent platform convention, held in Madison, was influenced by a desire for harmony and was disapproving to Mr. Philipp, because it was not in accord with the platform used in his campaign which secured his nomination.

Mr. Philipp explained his position on the floor of the convention and said that he would go before the people on the same declaration of principles which nominated him. That he intends to do this will be noticed by his first campaign speech, delivered last night at Glenwood City, and found in part on another page.

Mr. Philipp has not changed and if elected governor, as he should be, the people will have occasion to know the man, and the better they become acquainted with him the more will they discover that they have a friend at court, who is looking after their financial interests.

The most striking omissions in the Madison platform were as to the vital and burning state issues of overtaxation and pay roll and commission extravaganzas, and Mr. Philipp vigorously reaffirmed the sense of his own platform on these points, and while proclaiming himself a progressive man in the proper sense of the word, went on to say:

However, in our state the word has a political meaning. It means a state government consisting of nearly six thousand employees and fifty-two or more boards and commissions and an annual expense to the taxpayer of \$15,000,000 to \$18,000,000. It is this kind of conservatism that I do not agree to, and if strict economy in public affairs means conservatism, then I accept that political designation.

Mr. Philipp is a sane progressive, a possessor of sound common sense rather than a loud professor of impractical reforms. His election means the redemption of the state from thralldom and burdensome taxation.

## A LOFTIER RACE SHALL RISE.

These things shall be: A loftier race than e'er the world hath known shall rise.

With flame of freedom in their souls And light of knowledge in their eyes.

They shall be gentle, brave and strong To spill no drop of blood, but dare All that may plant man's lordship firm On earth, and fire, and sea, and air.

Nation with nation, land with land, Unarmed shall live with comrades free.

In every heart and brain shall throb The pulse of one fraternity.

New arts shall bloom of loftier mold, And mightier music thrill the skies, And every life shall be a song When all the earth is paradise.

There shall be no more sin, no shame, Though pain and passion slow may die; For man shall be at one with God In bonds of firm necessity.

—John Addington Symonds.

The sentiment expressed in this little poem, is a picture of imagination, and yet it expresses the desire of every peace-loving soul, everywhere. The day will come, in the glad by and by, when war will be no more. God speed the day.

## WAR AT HOME.

While the foreign war has had a quieting influence on American agitators and reformers, the spirit of persecution has not entirely disappeared, and even the national administration has some things yet to learn about the square deal with business. A writer for Leslie's has this to say about the situation.

"If this reckless campaign of muckrakers, yellow journalists and demagogues against the banking, industrial and railroad interests of the country finally arouses the public to a realization of its results as affecting every bread-winner, it may be worth all that it is costing.

"If it stirs up the business men of

this country to take a more active interest in politics, as President Vandenberg of the National City bank advises them to do, and if it leads to the selection of trained men of the highest integrity for seats in congress, legislatures and state departments, it may be worth all that it is costing.

"If it opens the eyes of the depositor in the savings bank to the fact that his deposits are invested in securities which are suffering from the onslaught of the demagogues, it may be worth all that it is costing.

"If the four million security holders in this country are awakened from their lethargy and stimulated to an appreciation of their personal interest in a policy of fair play and just treatment of our railways and industrial corporations, it may be worth all that it is costing.

"If this terribly trying experience awakens the conscience of the American people and stirs their patriotism into revolt against the demagogue, the pretender, the professional hypocrite, the grafter, the looter, the yellow journalist and the dirty muckraker, it may be worth all that it is costing and still will cost us.

"And if the great corporations that spend millions of dollars yearly in the advertising pages of destructive publications shall be taught, by a bitter experience, that it doesn't pay to put the torch in the hands of the incendiary, the lesson may be worth all that it costs us—up to date."

## KILL IT.

Second Amendment. The second amendment to the constitution to be voted on at the November election has to do with the recall of all officers, except judicial. It should be killed on general principles, as the recall is an insult to average intelligence and a menace to good government. It is a dangerous weapon in the hands of a disgruntled minority. Vote "no" and you will make no mistake. The amendment follows:

JOINT RESOLUTION NO. 15. To amend Article XIII of the Constitution, providing for the recall of public officers.

Whereas, at the biennial session of the legislature for the year 1911, an amendment to the constitution was proposed and agreed to by a majority of the members elected to each of the two houses, which proposed amendment is as follows:

"Resolved by the senate, the assembly concurring, That Article XIII of the constitution be amended by adding thereto a new section to read, Section 12. The legislature shall provide for the removal by recall from office, by the qualified electors of the electoral district in which any officer is elected, of every public officer in the state of Wisconsin holding an elective office, except judicial officers;" now, therefore, be it

Resolved by the senate, the assembly concurring, that the foregoing proposition be referred to the committee of the state of Wisconsin be, and the same is hereby agreed to by this legislature.

Note.—(If adopted, this amendment will enable the legislature to pass a law providing for the recall of all officers, including elective constitutional officers, but not including judicial officers.) It is estimated that the primary election, recently held, cost Cook county in Illinois one million dollars, and Chicago taxpayers are wondering what they got for their money. The more they investigate the less will they discover, for there is nothing about the primary law to recommend it. The law is a farce, foisted on an unsuspecting public by a coterie of designing politicians whose aim was to perpetuate themselves in office for a lifetime. The people of Wisconsin know, for they were in at the birth and are not proud of the monstrosity.

The revolution in Mexico goes merrily on and the opposing forces are now lining up under the leadership of Villa and Carranza. When only fourteen per cent of the people of a nation can read and write, a republican form of government is not adapted to their ignorance. This is the case in Mexico, and the sooner she becomes an empire the sooner will peace prevail. The United States is well out of the middle and can well afford to stay out. Mexico is suffering for lack of civilization and the country is a good field for missionary work.

## On The Spur of The Moment

### Psychology of the Game.

When the zephyrs blow  
An the posies grow,  
And their fragrance perfumes the air,  
When the future's bright,  
And all nature's right,  
And the weather is warm and fair;  
When there's naught but strife  
And pure joy is rare,  
And the whole works is to the good;  
When the birds sing  
And most everything  
Is behaving as it should;  
When the folks wear a smile  
Of a happy style  
And refuse to reduce the same  
Even by an inch  
It's a mortal cinch  
That the home team has won a game.

When the clouds hang low  
And the north winds blow  
And all nature seems sad and drear;  
When there's nothing right  
In the mortal sight  
And all nature seems sad and drear;  
When the entire town  
Wears a gloomy frown  
When the pessimists hold full sway;  
When you're good and blue  
Through and through and blue  
And you can't drive Dull Care away;  
When you're mighty sore  
And your life's a bore  
And the whole world seems awful tame;  
You can safely bet  
That the home team has dropped a game.

The Old Straw Hats. We have already mentioned the fact that the discarded straw hats can be fed to the cows. If you don't keep a cow, as every thrifty citizen should, unless he lives in a flat, place the old straw hat carefully in the garbage can.

We have already mentioned the fact that an inverted straw hat trimmed with baby ribbon makes an excellent basket for flowers and would be an ornament to any parlor.

An old straw hat run through the meat grinder makes an excellent breakfast food. The straw is enough in one hat for a family of seven. With a little cream and sugar added it will taste just as good as Try-A-Bite, Hot-Chunka, Tap-Bark-Make. The main object in the breakfast food

is to get something that is tasteless and there is nothing on earth so tasteless as an old straw hat. There is nothing better to plug up a broken window pane than an old straw hat. It not only keeps out the storm, but furnishes ventilation to quite a considerable extent.

The old hat can and will be made into an excellent sewing basket for the missus.

There are a thousand things that can be done with an old straw hat. An adept at arts and crafts can make a \$47 smoking set out of it with a little varnish and a few pounded copper trimmings. In fact, it is appropriate to do anything with an old straw hat excepting to wear it in September.

Uncle Abner. Since the blonde trimmer went to work in the millinery store, all of our business men have been wearing their silk hats and dress suits downtown on week days.

A man never gets anything in this world if he doesn't ask for it, and very seldom when he does.

If it wasn't for love at first sight, there would be few marriages. If everybody stopped to take the second look—good night.

There may be other ways of making a living besides working for it, or living with your wife's folks, but none of 'em has ever been discovered.

Grandpa Bibbins says, "jedgein" by the arguments, it is pretty hard to tell whether the country is being saved or is going to the dogs. He will probably find out that neither argument is correct.

There's a vast difference between heredity and environment. When a young man goes out into the world and makes good, and brings home a lot of long green, buys a house and lot for his parents and becomes a famous man, the parents claim it is due to heredity. When a young man goes out in the world and makes a failure and finally comes home to live with the parents, a sort of shiftless, good-for-nothing, the parents believe it is a pure case of environment and that there is no such thing as heredity.

## Blue of the Sky.

Oxygen is not colorless, but of a pretty blue color, even in a layer of slight thickness. Liquid air has a bluish tint increasing in depth with the proportion of oxygen. While it is not certain that a body has the same color in a solid as in the gaseous state, it is nevertheless true that this at once suggests an explanation of the phenomenon of the blue color of the sky.—Scientific American.

## SCIENCE NOTES

Upon the completion of the new Broadway Subway, the express station to be located at Herald Square will make that location one of the most active traffic centers in the country.

There will be no less than three surface lines, Broadway Subway, extension of the Hudson Tunnel and the elevated line, making six traffic systems at four levels. The new station will have 11 different entrances.

France has given more attention to its canal system than any other country in the world, and in the last 15 or 20 years a great deal of money has been expended on the renewal and extension of the old canals and the building of new ones. Just at present work is being conducted on an underground canal, which will give access to the Mediterranean. It will be about four and a half miles in length and will comprise part of a waterway from Arles to Marseilles, a distance of about 50 miles. On the course lies the large lake known as Etang de Berre, which will be reached by open canal. From the lake to Marseilles a mountain chain cuts off the way, so that the canal must be run in tunnel from here to the sea. As the underground canal needs to be large section, this represents quite an undertaking and will cost most of the \$15,000,000 allotted for the canal enterprise. A circular arch section is used, with narrow tunnels on each side, the width of the section being 73 feet and height 51 feet, so that its section will be eight times that of the Paris subway. The canal itself occupies a rectangular section 10 feet deep and 60 feet wide. At present this work is under way and will represent some 2,000,000 cubic feet of rock excavated and emptied into the sea. Electric cables bring over 2,000 horsepower for the drills and other machines, besides the electric locomotives for spoil trains.

Electric cables bring over 2,000 horsepower for the drills and other machines, besides the electric locomotives for spoil trains.

France has given more attention to its canal system than any other country in the world, and in the last 15 or 20 years a great deal of money has been expended on the renewal and extension of the old canals and the building of new ones. Just at present work is being conducted on an underground canal, which will give access to the Mediterranean. It will be about four and a half miles in length and will comprise part of a waterway from Arles to Marseilles, a distance of about 50 miles. On the course lies the large lake known as Etang de Berre, which will be reached by open canal. From the lake to Marseilles a mountain chain cuts off the way, so that the canal must be run in tunnel from here to the sea. As the underground canal needs to be large section, this represents quite an undertaking and will cost most of the \$15,000,000 allotted for the canal enterprise. A circular arch section is used, with narrow tunnels on each side, the width of the section being 73 feet and height 51 feet, so that its section will be eight times that of the Paris subway. The canal itself occupies a rectangular section 10 feet deep and 60 feet wide. At present this work is under way and will represent some 2,000,000 cubic feet of rock excavated and emptied into the sea. Electric cables bring over 2,000 horsepower for the drills and other machines, besides the electric locomotives for spoil trains.

France has given more attention to its canal system than any other country in the world, and in the last 15 or 20 years a great deal of money has been expended on the renewal and extension of the old canals and the building of new ones. were present. Practice was held at  
the close of the report.

Knight's Columbus: A special and  
important meeting of the Knights of  
Columbus will be held tonight. All  
members are requested to be present.

THREE ESCAPE DEATH  
WHEN CAR JUMPS ROAD

A. G. METZINGER, CARL ROSEN-  
BURGER AND CHAS. FLACKER  
IN AUTO ACCIDENT.

## ALL SEVERELY INJURED

Auto Strikes Rig Near Golf Grounds  
Throwing Couple into Embank-  
ment in Second Accident  
Last Night.

Barely escaping with their lives,  
A. G. Metzinger, Carl Rosenberg  
and Charles Flacker, sustained serious  
injuries in an automobile accident  
last night about nine o'clock when  
Metzinger's light touring car toppled  
off into the ditch near the town line  
bridge. The accident happened about  
a hundred feet north of the bridge,  
the back of the party returning to  
this city from Beloit.

Rosenburg was injured worst of the  
three men, having his face lacerated  
by flying glass, an ugly wound on  
the back of his head, and required  
eight stitches to close, one rib broken,  
an lacerated finger, the digit being  
nearly torn from his hand. Metz-  
inger, whose head was injured, and  
shoulder and face bruised slightly.  
Flacker, who was riding in the  
tonneau, had his collar bone  
broken, shoulder dislocated and it is  
doubted, but this is not certain until  
x-ray photographs are taken today.

People who have investigated the  
path of the machine down and over  
the slight embankment are unable to  
athom how the men escaped with  
their lives, the machine having  
turned over and landed right side up  
on a stump three feet high in the  
bushes. The side of the road was  
paved for twenty feet and the  
bushes tramped down for some dis-  
tance before the car came to a stop.

Tells of Accident.

Metzinger stated this morning: "It  
happened so quickly that no one of  
us can tell how it came about. When  
the interurban crossing the car  
lurched and in an instant we were  
hurled over the incline. I do not know  
how long I was unconscious but when  
I came to I found myself lying on my  
side of the car. My shoulder  
and arm pained badly and the bone  
was out of the shoulder socket. Rosen-  
burger was at the front, bleeding profusely  
with a horrible cut on the back of  
his head. Flacker was some dis-  
tance beyond, laying as if dead."

Rosenburg was later an hour  
gaining his senses and we boarded  
the 12 o'clock interurban for Janesville  
to obtain medical attention, leaving  
our hats and everything behind us.

Dr. F. H. Farnsworth dressed the  
wounds and set the broken bones of  
the men, who were then taken to their  
homes, Flacker being cared for at  
the Grand Hotel.

The machine was not damaged as  
much as was feared and was hauled  
back this afternoon. Mr. Metzinger  
went with a party to the scene, and  
the accident and found to his surprise he  
had a resemblance of an automobile  
and not a heap of scrap iron as ex-  
pected. The radius rods were bent  
and the springs were sprung one lamp  
and wind-shield smashed and mud guards  
nearly torn off.

Metzinger narrowly escaped in an  
auto accident a year ago when  
while driving alone, Rosenberg was  
employed as butcher at the Fair  
Store and Flacker is a traveling man  
for the Motor Trucking company.

Accident Near Golf Club.

Miss Gladys Ferguson, South Jack-  
son street, was injured in an accident  
near the golf course last night, when  
a touring car driven by two men ran  
into the buggy occupied by Miss Fer-  
guson and J. L. Cullen, Lincoln street,  
throwing both out of the rig. The  
frame was sprung and the car, while  
escaping, young lady had her face cut and  
shoulder bruised.

It is stated by Cullen that the auto  
was coming in the same direction as  
the one which was toward Janesville,  
and ran into them while going at a  
fast rate of speed. The buggy tipped  
over twice and was wrecked. The  
horse galloped at freedom from the  
harness which stopped. The two men  
stopped their car and gave aid to  
Miss Ferguson. The driver of the  
auto gave his name as Alfred Smith,  
but this morning it was learned that  
the name was not correct.

## STUDY AGRICULTURE

## AT WALWORTH FAIR

Prof. West and Class of Twenty-Five  
Local High School Boys Attend  
Elkhorn Exposition Today.

Prof. A. B. West, instructor of Agri-  
culture in the high school, accompa-  
nied by about twenty-five boy students  
in the course in agriculture, left  
Janesville this morning on the special  
train for a day at the Elkhorn fair.  
The party was expected to see the  
stock at the fair, as they are at present  
engaged in the study of farm live-  
stock, but they will also see the grain  
exhibits and those of farm machinery,  
which subjects are taken up during  
their course in the high school. The  
day will no doubt be one of interest  
and profit.

## BARDWELL SECTION CREW

## BARELY ESCAPE ACCIDENT

## AS TRAIN HITS HANDCAR.

A crew of Chicago, Milwaukee and  
St. Paul railway section men of Brad-  
well had a narrow escape from death  
last night when their handcar was struck by  
a special train of coaches sent from  
Chicago to here to accommodate the  
Elkhorn fair visitors today.

When their handcar was struck by a  
special train of coaches sent from  
Chicago to here to accommodate the  
Elkhorn fair visitors today.

Men lucky to escape from the ap-  
proaching train by the glare of the  
high powered searchlight and escaped  
injury although their car was struck  
and demolished. The accident bro-  
ke the engine and the coaches.

When the Five Points here were being  
crossed the hanging timbers tore  
several planks from the crossing.

## TWO DRUNKS PLEAD GUILTY

## IN THE MUNICIPAL COURT

Two drunks were arraigned in the  
municipal court this morning before  
Judge E. L. Maxfield on the charge  
of being drunk and disorderly. Helmer  
Fallen of Stoughton, drank fifteen dol-  
lars in default of a fine of fifteen dol-  
lars. He was thought enough to last him  
for a spell in the dry town, but fared  
badly in court.

Charles Olson of Shopiere paid a  
fine of ten dollars and costs for intox-  
ication, pleading guilty to the charge.

## BREAKS ARM CRANKING

## AUTOMOBILE WEDNESDAY

Herman Bugge had the misfortune  
to have one of the bones of his right  
arm broken near the wrist while  
cranking an auto yesterday morning.  
The crank broke, throwing the  
crank against Mr. Bugge's wrist, splin-  
tering the bone.

## PERSONAL MENTION.

Dr. E. E. Loomis is expected home  
from Denver, Colorado, today.

Mr. Joseph Myron of Zions spent  
the day, Wednesday, in Janesville.

Miss Sarah Denning is visiting in  
Beloit, the guest of her sister, Mrs.  
John Denning.

Bay, after spending the day, Wednes-  
day, with Mr. and Mrs. Frank Bentley  
of this city, left this morning for Chi-  
cago.

Frank Mahoney of Chicago, is in  
Janesville today.

Miss Elizabeth Carlton was in  
Whitewater yesterday to attend the  
funeral of the late Bernard Benni-  
son.

Miss Josephine Fitzgerald enter-  
tained an auction bridge club at her  
home on Center street yesterday  
afternoon.

Miss Louise Norcross is visiting  
friends at Fort Atkinson.

Miss Faith Bostwick, left on  
Wednesday for Kemper Hall at  
this city to take up her studies for  
the winter.

Frank Reynolds of Milwaukee was  
the guest of relatives in this city  
yesterday.

Mr. Walter Martin is spending a  
few days in Elkhorn and Delavan  
with relatives.

Mr. and Mrs. O. P. Brunson of  
Milton avenue have gone to Kansas  
City, Mo., to spend several weeks.

Miss Mary Curtis, daughter of Mr.  
and Mrs. Q. Curtis, of South Main  
street has gone to Oakland, California,  
where she has accepted a position as  
teacher, in the public schools of that  
city.

Mrs. M. A. Spencer, of Seattle,  
Wash., is spending a month in this  
city, as representative, Mrs. Spencer  
will be remembered as Miss M. A.  
Bowerman, who made her home in  
Janesville for many years.

Miss Edna Shoemaker and Miss  
Edie Jones, of this city, went to  
Elkhorn today to attend a party,  
given at the home of Mrs. Charles  
Langworthy in that city. The affair  
is given in honor of Miss Shoemaker,  
whose marriage will take place this  
fall.

Miss Emma Winans gave a small  
luncheon at her home on South Bluff  
street on Wednesday.

Mrs. Frank S. Sargent has gone to Elk-  
horn today to attend the fair.

Eugene Griffin of Albany had busi-  
ness in Janesville yesterday.

Mesdames Norman Carle, John G.  
Reed, Arthur Burdette, Harry Blise,  
and John L. Wilcox who are members  
of the Birthday club, went to Delavan  
lake today, where they will hold a  
party at the Elkhorn cottage.  
They will return on Saturday.

Mrs. Fred Burpee of St. Lawrence  
avenue entertained several young la-  
dies this afternoon in honor of Mrs.  
Frank Baran, Beloit, Mo., who  
are the guests of relatives in the city.

Jeffris spent the day on Wednesday  
in Rockford.

Mrs. E. P. Hughes is spending a few  
days with Albany friends.

Misses Helen Jeffrie, Emma Richard-  
son and Ida Green returned today  
from Lake Koshkonong where they  
have been spending the past ten days  
at the Richardson cottage.

Miss Mary Broderick is visiting  
friends in Albany today.

M. P. Thurber, assistant superin-  
tendent of the Mineral Point division  
of the Chicago, Milwaukee & St. Paul  
railway, was in this city today.

Charles Harris has returned from  
a month's visit at Toronto, Canada.

Rev. Henry Willmann spent today  
at Brodhead.

Ernie Morse returned this morning  
from St. Paul, Minnesota, where he  
has been on a business trip.

The Art League will give an "ex-  
periment" social at the Caledonia  
rooms on Friday afternoon. Every  
member during the summer earned a  
dollar which is to go toward paying  
for the last picture purchased by the  
Art League, and the ladies will tell  
how they earned the money.

Refreshments will be served during  
the afternoon.

Mrs. G. E. Fatsinger of Ravine  
street entertained this afternoon a  
two-table bridge club at half after two.

Mrs. Dora Butts of Milton Junction  
was a Janesville shopper this week.

Mrs. Charles Doherty and daughter  
have returned to their home in Edger-  
ton after a visit with relatives in this  
city.

Mrs. S. C. Chambers of Milton Jun-  
ction visited in this city on Tuesday of  
this week.

Per Myers spent Wednesday in  
Beloit on business.

after a visit of several days with her  
brother in Spring Valley.

Mrs. P. W. Smith and Mrs. C. O.  
Tuite and daughter, Mary, are  
spending a few days in Rock-  
ford.

Miss Louise Norcross is visiting  
friends in St. Atkinson.

ESTATE DIVISION  
SOUGHT BY HEIRS

Many Heirs of George Codman Who  
Died in 1883 Want Their Share  
of Farm.

A complex settlement of the ac-  
count of E. G. Codman, a town of  
Newark farmer, confronted today  
County Register in Probate, O. M.  
Nelson, who has been appointed re-  
ceiver of the case.

Codman's father, George Codman,  
died in 1883, thirty-one years ago. The  
property was not divided among the  
heirs at that time and the man's  
whose account is to be settled today,  
arranged to run the property which at  
that time was worth about \$3200, im-  
provements and upkeep together with  
the increase of county farm holdings  
has shown a material increase during  
the past thirty years and now the  
property is said to be worth more than  
twice its value of thirty-one years  
ago.

About six months ago the farm was  
sold at public sale and now the heirs  
are looking for their respective shares.  
Children, grand-children and children's  
grand-children all seek a portion of  
the estate. An idea of the complexity  
of the situation that confronts referee  
Nelson is seen in the petition of one  
heir for one seventy-second of the en-  
tire estate.

The Nebraska committee will recom-  
mend a Bill Drafting Bureau  
on the Wisconsin Order.

[SPECIAL TO THE GAZETTE]

Madison, Wis., Sept. 24.—A joint  
committee of the Nebraska senate  
and house has filed a report recom-  
mending reform in legislative pro-  
cedure and budget, and for immediate  
adoption purposes the establishment  
of a bill-drafting division of the legis-  
lative references similar to the one  
now in service in Wisconsin. The  
committee states that this recom-  
mendation is based upon the practical  
experience in Wisconsin and other  
states and upon the report of a dis-  
tinguished committee of lawyers  
adopted by the American Bar associ-  
ation at Montreal.

The Nebraska committee also  
recommends the Wisconsin plan of  
engrossing and enrolling bills, and  
publishing daily a subject index of  
bills and their position on the  
calendar.

A civil service law also is  
proposed.

The report notes that out of 2,024  
bills and resolutions in the last Wis-  
consin session, 1,915 were drawn by  
the legislative bureau.

"In only three states," continues  
the Nebraska committee, "does effi-  
ciency of employees seem to be the  
prime consideration. Wisconsin  
where the legislative employees are  
under civil service regulation; Ohio,  
where civil service will be used in the  
legislature; and Iowa, where the sten-  
ographers are examined."

The total legislative expenses of all  
kinds of the Wisconsin session of  
1913 (Jan. 8 to Aug. 9) were \$194,737.  
23, divided as follows: Pay and  
mileage of members, \$116,124; salary  
of officers, \$26,000; pay of officers  
and employees, \$76,918.42; cost of  
printing legislative bills, \$42,099.42;  
including session laws, the state pub-  
lication of the laws of 1913 in weekly  
newspapers; other miscellaneous ex-  
penses, \$4,148.15.

F. H. Brigham of Appleton will also  
deliver an address from some un-  
known subject. Both speakers are ex-  
perimenters, and have valuable infor-  
mation to interest their audiences with.

The conference of workers, officers  
and teachers of the various Sunday  
schools of the city was called at 3:30  
o'clock this afternoon at the Cargill  
church auditorium with a good dele-  
gation represented. Miss Kilpatrick  
gave her address on "How to Win  
Men," as the closing address of the  
Sunday school rally held today in this  
city.

Miss Elizabeth Kilpatrick to Talk on  
"How to Win Men"—Conference  
Was Held This Afternoon.

An open invitation is extended to  
those interested in Sunday school  
work to be present tonight at the  
Methodist church dining hall at 7:30  
and hear Miss Elizabeth Kilpatrick  
give her address on "How to Win  
Men," as the closing address of the  
Sunday school rally held today in this  
city.

F. H. Brigham of Appleton will also  
deliver an address from some un-  
known subject. Both speakers are ex-  
perimenters, and have valuable infor-  
mation to interest their audiences with.

## The Evening Chit-Chat

BY RUTH CAMERON

### OUR AUTOMOBILES AND PEDESTRIANS.

Too much cannot be said against the recklessness and selfishness of the automobilist who thinks he has an inalienable right to travel at steam engine speed along the public highway, and that anyone who interferes with that right deserves to be run over.

On the other hand, something nearly as strong needs to be said about the recklessness and selfishness of the pedestrian who has the right to be as careless as he chooses about crossing or walking upon the street.

"Goodness, aren't you afraid of getting run over?" I heard one young woman say to another the other day, after the first had made an automobile swerve across the road to avoid striking her.

"Oh, no, I'm not afraid. I never bother about automobiles," said she, airily. "I let them look out for me."

She evidently thought she was showing a great deal of courage and independence by her attitude. As a matter of fact she was displaying recklessness and selfishness.

Perhaps she had a right to risk her own life if she chooses (though that is a big question) but she had no right to risk the lives of others. Suppose by her independence she forces a machine to stop or swerve suddenly upon wet days when the pavement is treacherous. It may mean loss of property and perhaps life to those in the car.

The other day we were proceeding down the hill on a country road, at no great pace, when a man on a bicycle shot directly out of a small path hidden from the eyes of the driver by shrubbery, and straight across the road in front of us. We swerved, plunged into the bushes and into the ditch. We struck the rear wheel of the bicycle and knocked the man off, but did not hurt either him or his driver. By grace of having an exceptional driver, we escaped turning turtle. Had the ditch been a little deeper or our wheels a little less skilful, we could not have taken the narrow middle course between killing the man or injuring ourselves. Had we killed him, many would have blamed us. Had we been killed, few would have thought to blame him.

In France, as I understand it, when a man is hit by an automobile he is arrested and forced to explain how it happened. Of course the automobilist should be summoned too. But if we have less responsibility to share. Sidewalks are for pedestrians; streets are for vehicles. The pedestrian has a perfect right to cross the street, of course, but no more right to walk in it (when there is a sidewalk) than a vehicle to drive on the sidewalk.

## Heart and Home Problems

Dear Mrs. Thompson: Is coffee harmful if used every meal?

(2) Should a girl keep company with a number of boys?

(3) Which do you think is more profitable to take in high school, Latin or German?

A SCHOOL GIRL.

(1) Stimulant coffee is a stimulant and if used to excess is harmful. A cup each meal does no harm most people.

(2) I see no reason why a girl should not have a number of boy friends. A young girl should not have the regular attention of one young man while in high school.

The going to school in crowds is much better as it gives the society one wishes and does not fill the mind with thoughts of marriage when the girls and boys are too young to think of such things.

(3) I think German is more practical than Latin and gives just as much mental discipline.

Dear Mrs. Thompson: Do you think it proper for a girl of 17 to go with a young man? How late should they stay out?

(1) Should first names be used?

(2) Is it right for a girl to call her boy friend up over the phone?

(3) Is it right for two couples to ride in one buggy?

(1) A girl of 17 is too young to have regular gentleman company. They should not be out after half past ten or eleven o'clock.

(2) If boys and girls have grown up together it would be silly for them to address each other as Mr. or Mrs. but when forming new acquaintances

it is much better to avoid too much familiarity and use only last names.

(3) Circumstances might arise when it would be necessary for a girl to call a boy up over the phone. It should never be made a practice as it is not polite and is done frequently it cheapens a girl.

(4) No. \*\*\*

Dear Mrs. Thompson: Please tell me how to make marshmallows with gelatin.

(1) How shall I thank my mother-in-law for a present? She has not spoken to me for years. MRS. H.

(2) You will find the marshmallow recipe in the gelatin recipe book inside the package. The amount used depends on the kind of gelatin.

(3) Should we write a cordial note of thanks for the present? Evidently the woman wants to be friends, and you of course will be pleased for your husband's sake if for no other reason.

Dear Mrs. Thompson: Please tell me how to curl ostrich plumes.

MRS. M. J.

Hold the plumes in the oven till they are thoroughly heated. If this is not sufficient, draw the back of a knife gently along the back of plume.

Dear Mrs. Thompson: Is there a way of renovating faded artificial flowers?

E. B.

Flowers can be painted with water colors very successfully.

Dear Mrs. Thompson: Please advise me how to make a royal blue velvet dress for a young girl.

MAZIE.

A draped skirt of the velvet with a waist of net or lace of the same color trimmed with the velvet or brown fur would be very effective.

Dear Mrs. Thompson: Can you give me the recipe for chapped skin?

E. K.

A good remedy for chapped skin is equal parts of camphor and glycerine. It is healing and softening to the skin. Another good lotion is: 2 oz. bay water, 20 drops carbolic acid.

ful of thick white sauce and stir into it a beaten egg yolk two cups of flaked or chopped cold fish and a teaspoonful of lemon juice. Add a very little chopped pepper if liked. Shape into cakes and fry in an open frying pan as you would fry salt fish cakes. Serve with French fried potatoes and pickled beets and decorate with parsley.

Lobster a la cream—Melt four tablespoonsful of butter and add to it one level tablespoonful of salt and a few grains of cayenne. Pour in a cupful of this cream, and when the sauce has cooked, add the meat from a good sized lobster, first cutting the meat into cubes. At the end, just before serving, add a beaten egg and two tablespoonsful of Madeira wine. Tomato Rarebit—Mix in a saucepan over the stove half a pound of crumbled cheese, a teaspoonful of Worcestershire sauce, a saltspoonful of dry mustard, half a cupful of

strained stewed tomato, a pinch of baking soda and salt and pepper to taste. When thoroughly melted and smooth, drain from the fire, add two well-beaten eggs, cover for a moment or two and then serve on toast.

Carrot Salad—Shred a cabbage and soak in ice water for several hours. Drain and line a salad dish with it, sprinkling lightly with pepper and salt. Cook equal quantities of carrots and small beets and marinate them in French dressing for two or three hours. Arrange these on the cabbage nest, alternating the colors in attractive fashion. Sprinkle a little grated horseradish on top and pour over all a fresh dressing of a bearded dressing and serve after the salad is thoroughly chilled.

Pepper Mash—Chop fine green peppers, red peppers and small onions, six each. Add a tablespoonful and a half of salt and let simmer for ten minutes. Then drain and add two cupsful of vinegar and half a cupful of brown sugar. Let boil up and then turn into a hot bottle. This is a very fine mixture for sandwich filling.

Rice Muffins—Wash one-half cup rice in two waters, using double boiler. Remove from fire and stir in two tablespoons sugar, piece of butter size of an egg, one teaspoon salt and one-half cup sweet milk. When cool, add one-half yeast cake that has been softened in one-half cup lukewarm water and two quarts flour. Beat well, let rise overnight. This should be very light in morning. Pip carefully with spoon into buttered muffin tins and bake in hot oven twenty minutes. Very good for breakfast.

The Kitchen Cabinet

So let the way wind up or the bill or down, O'er rough or smooth, the journey will be joy.

Still seeking what I sought when but a boy, New friendship, high adventure, and a crown, My heart will keep the courage of the quest, And hope the road's last turn will be the best.—Henry van Dyke.

THE FRESH MUSHROOM.

The season for the juicy, delectable mushroom is here. In early May the dainty little caps appear, and will be with us until Jack Frost pinches them.

The one species which is best known and most common is the meadow mushroom found in the wild state from July to the last of October. In gathering mushrooms, however, a little knowledge is a dangerous thing and one should be sure of the variety gathered before eating, as many people have a mushroom appetite to a toxicological judgment. The idea that toadstools, commonly called, are poisonous is wrong, for all mushrooms are toadstools and all toadstools are mushrooms.

It seems such a pity that much of this most appetizing luxury, which is in many places, provided so lavishly by Mother Nature, should not be better understood, so that they be used for food instead of being wasted by decay.

As the vegetable is little known, so of course, few ways of serving it are known. The following recipes, which are taken from M. E. Hard's book on mushrooms, are worth preserving for the time when you are fortunate enough to have some to cook.

To the epicure Mr. Hard says there are but four ways of cooking mushrooms, broiling, roasting, frying and stewing.

If it is possible in preparing mushrooms do not wash them, as the water destroys some of the delicate flavor. If they must be washed drain carefully, and for broiling, use only the large, flat variety. Keep the stems for a dish of stew and use only the caps. Peel them by beginning at the edge and finishing at the top. Lay them on a buttered broiler, gills up. Put a small quantity of butter, salt and pepper in the cap, and let them cook until the butter melts. Serve on toast.

Relish Mushrooms

She returned to her sewing, as there were little gowns to be finished by Sunday. Somehow the little gowns that she so liked to fashion had lost their interest. The as she would, she could not sit at her work. The blamed old bill kept sidling up to her in a way that finally made her believe that conscience can make cowards of us all.

She stopped the machine, walked over and surveyed herself in the mirror. "You do not look like a thief," she said to the sensitive face reflected in the glass. "At heart that is what you want to be. A thief. Once! What an ugly word!" She resumed her sewing and her singing. Next morning she went to town and nearly caused the death by heart failure of the merchant, by paying the bill he had sent, and two additional dollars.

That is all very nice to use as a space-filler," you say, "but in real life only a simpleton would do anything like that." Then be glad that there are simpletons in our world today.

Looking hastily over any of our papers you can't scan, you are daily

regaled with accounts of how one man after another takes the funds of the poor, uses them with a child-like disregard of the consequences, then casts a long, dark shadow over names and the names of their families by being henceforth known by number or taking the "courageous" suicide route out of their trouble.

It may be hard to always do what is right (for many of us it is mighty hard) but it is not the acme of wisdom? The best reason for doing right is for one's conscience's sake. For is the person born, who if they be truthful, can affirm that they can "bit the high places" and not bear that still, small voice protesting? If one does not care to admit to owning a conscience (which is at times a troublesome asset) at least be wise enough to realize that to be faithful in matters of small import, simply fits you to be trusted in affairs of greater moment. Eventually, it always pays to be honest—to train your children to be honest.

Surely in Hard Straits.

A Chicago man who has a son at Cornell took occasion while on the way home from New York to stop off for the purpose of seeing how the boy was getting along. It happened to be just after the Cornell football team, which had undergone many humiliations that season, had been beaten by Colgate. "How are things going with the football team?" the father asked, pretending to be seeking information. "The Cornell football team!" the young man exclaimed with all the disgust that he could put into his tones; "it has been beaten by everything except the Colonial Dames!"

"What French Chit?"

Enamelware Cement.

For mending enamelware pots and pans where a hole has been made or the enamel has been chipped off, the following is effective: Equal parts of soft putty, finely sifted coal ashes and sifted table salt. Mix all together and pack it into the hole. Place the mended article on the stove with a little water in it until the cement gets hard. It never fails, and it becomes as hard as the enamel itself.

War Atlas—Cut the coupon from today's paper and bring it to the Gazette office with 17c, or by mail 19c.

## The Awakening of Peggy

In Which We Learn from Mr. Condy's Own Lips What He Thinks of Life.

When two young people are getting acquainted, they generally follow a time-tried method of going into action. They take soundings of each other's interests to see what they have in common. It is the rule that when they have gone through this ritual they are ready for friendship, provided their views are not too divergent.

Condy and Peggy Condy, on the evening when the latter called, of course had to compare ideas on Omar, and Kipling, and all the other formal stock favorites. Peggy didn't know much about any of these, but like most of our girls she had enough ideas trained at her command to answer the conversational necessities.

"Those fellows are all right," said Condy in finally disposing of the old favorites, "but I think the best fun in life is in doing things. I haven't read many highbrow books, and don't care to. I haven't time. There's too much to do right around one."

"But don't you think everyone ought to read the best classic writers?" protested Peggy primly. This from Peggy, who hadn't read half a dozen classic authors in her life.

"Oh, I suppose I'm open to attack," replied Condy. "I generally start something when I talk that way. But on the square, I don't believe half the things who disagree with me read anything more sensible than the popular magazines. I don't believe in

pretending what I don't practice." Peggy couldn't think of anything to say to this.

"What interests me," pursued Condy, "is performance. I like people who want something real who know how to go after it, and who get what that believe is worth while. That's why I'm interested in the plans you've been telling me about. At first I wondered after what I was told, whether you might not be a little too austere in your high purposes. Now I know I was misinformed about this."

Peggy smiled inwardly. The thought of her being austere in good works, so soon after her conversation at her father's hands, amused her. Mr. Condy evidently didn't know her giddy history or he might have been inclined to discount her sincerity a wee bit. Maybe his taking her for granted might strengthen her in her course.

"The trouble with people who are too deep in their purpose," Condy was continuing, "is that they are apt to be pleased. They can't enjoy themselves. I believe we ought to have a good time as we go along, and keep young. We ought to mix hard work and real play."

"But there's enough of this oracular vein," you'll think I'm a lecturer broken loose from the Chautauqua circuit. Let's have some music."

Peggy's later confession to her diary was that she considered Mr. Condy full of interesting possibilities.

Every Day Talks To Every Day People

BY FRANCES JOYCE KENNEDY.

"The knowledge that I planned to do it made the act seem actually wrong," said the woman with the baby carriage, to her older companion as she walked down the street.

"Nonsense, my dear. You paid the bill. That's all there is to it. Forget it," advised the woman addressed.

The bill was out of her mind. Last in the day, by chance, the first speaker mentioned it again. Here it is: A woman owed a bill and intending to pay it, called up the dealer, requesting him to send the bill. Then she herself had kept a faithful account and knew the correct amount.

The bill arrived and was for two dollars less than the amount the woman had intended to pay. Then she entered the valley that at some time or another most people, during the course of their lives enter. She was puzzled. What was what? What was it? She thought of what she could do with that two dollars and was often the case, the amount seemed miraculous in its ability to purchase, in her mind's eye. Why should she not pay what was asked? What bother about the merchant's side of the question? He had a bookkeeper to look after his interests. She would pay the bill he had presented. She would!

She returned to her sewing, as there were little gowns to be finished by Sunday. Somehow the little gowns that she so liked to fashion had lost their interest. The as she would, she could not sit at her work. The blamed old bill kept sidling up to her in a way that finally made her believe that conscience can make cowards of us all.

She stopped the machine, walked over and surveyed herself in the mirror. "You do not look like a thief," she said to the sensitive face reflected in the glass. "At heart that is what you want to be. A thief. Once! What an ugly word!" She resumed her sewing and her singing. Next morning she went to town and nearly caused the death by heart failure of the merchant, by paying the bill he had sent, and two additional dollars.

That is all very nice to use as a space-filler," you say, "but in real life only a simpleton would do anything like that." Then be glad that there are simpletons in our world today.

Looking hastily over any of our papers you can't scan, you are daily

regaled with accounts of how one man after another takes the funds of the poor, uses them with a child-like disregard of the consequences, then casts a long, dark shadow over names and the names of their families by being henceforth known by number or taking the "courageous" suicide route out of their trouble.

It may be hard to always do what is right (for many of us it is mighty hard) but it is not the acme of wisdom? The best reason for doing right is for one's conscience's sake. ## USE GOOD ENGLISH

Use Good English, And Become Temperate.

(This is Lesson XVI in a series of short, simple lessons in English, by C. H. Rounds, Inspector of English, Wisconsin State Normal Schools.)

AWFUL

Let me record a conversation between two girls, just as I heard it, except that I shall spell the words better than they were pronounced:

Irene: "Listen, Mame! What do you know about this? I got a bid to the pattern-makers' ball!"

Mame: "Well, what do you know about that?"

Irene: "Sure I did. The guy that took Stell Endres last year. Gee, but he's a swell guy."

Mame: "What, him? Why I can't bear that gink. I was so mad at him last year I wanted to kill him."

Irene: "Oh, you don't know him. I think he's positively the nicest kid that ever breathed. I'd just love to dance with him all night. He's really awful nice."

Mame: "Well, I can't see him at all. I hate him. He stepped on my skirt and I'd like to kill him. Anyhow I hate all men with light hair. Oh, Irene! See that swell guy with the fur coat coming in the door. Ain't he swell? Gee, I think he's the swellest guy I ever saw."

And so on.

Now, that isn't very bad conversation. It is perfectly natural for two healthy, happy girls to want to talk about young men and dancing. The question is: Does anything come of such conversation? Does it get any where? Does it have any purpose? Is it worth while?

"But," you may object, "aren't we ever to talk just the way we feel?"

The answer to that is that these girls were not talking exactly as they felt. Mame didn't really feel like killing Irene's friend. What she really meant was that she had taken a dislike to him, partly because his hair was light and partly because he had stepped on her skirt. And we don't know what the girls mean by swell. The man with the fur coat seems to be well because he is so well dressed. It is not likely that Irene's young man is swell because of his clothes. What does swell mean to these girls? And how about awful nice? Awful means full of awe, awe-inspiring. Nice means exact, refined, correct, accurate. Does Irene mean that her young man is awe-inspiring and accurate? Probably not. More likely she means that she is very fond of him. But she doesn't think he is the nicest man that ever breathed or she wouldn't call him a guy. Why doesn't she say what she means? Because this disease of loose, inaccurate, inflated, exaggerated speech has obtained such a hold upon her tongue that she is not satisfied with temperate speech.

And how do you like that foolish expression: "What do you know about that?" Probably that was bearable the first hundred times it was used. But it is utterly empty now.

Suppose you try sane, temperate speech for just one day, and see how it goes. Suppose you brace yourself against such useless, inane expressions as 'Ain't' so? I should worry! What do you know, etc. Just trim your speech down to what is true and sensible for one day. It will be worth while.

(Copyright, 1914, by C. H. Rounds.)

Why Modern Women's Hair is Getting Thin—By Mdm. Beaupre

Wigs, switches, curling tongs, artificial waving, singeing, etc., have combined to ruin the hair of modern women, so there is decidedly a decrease in baldness. But proper use will develop heavy, beautiful hair upon any head. In washing the hair do not use a makeshift, which removes more than the excess of leaving the hair dangerously dry, use something which is made to shampooing only. A perfectly safe, economical, invigorating shampoo that makes the hair so fluffy it seems much heavier than it is, can be had by dissolving a teaspoonful of canthar in which every good druggist sells, gently, yet thoroughly, removing all sandruff, excess of oil and dirt, giving to the scalp and hair the vigor it insures scalp-health and hair-health. Canthar shampoos make the hair feel good, make the hair look good, are very beneficial where the hair is faded, dull or brittle, and the regular use of canthar will greatly improve the color of the hair and give it a beautiful gloss and softness.

## Household Hints

THINGS WORTH KNOWING.

To clean a gas oven, dissolve some rought potash in a little cold water and paint the inside of the oven all over with it, using a very old brush. Leave this on over night, and the next morning wash it off with warm water. All the grease and burnt bits will come away, leaving the oven perfectly clean.

To give silk that is being washed the sheen of new silk, add just a little methylated spirits to the rinsing water.

The short ends of candles melted and mixed with equal parts of turpentine make a fine polish for hardwood floors.

Add a few crumbs of bread to scrambled eggs. This will improve the dish and make the eggs go further.

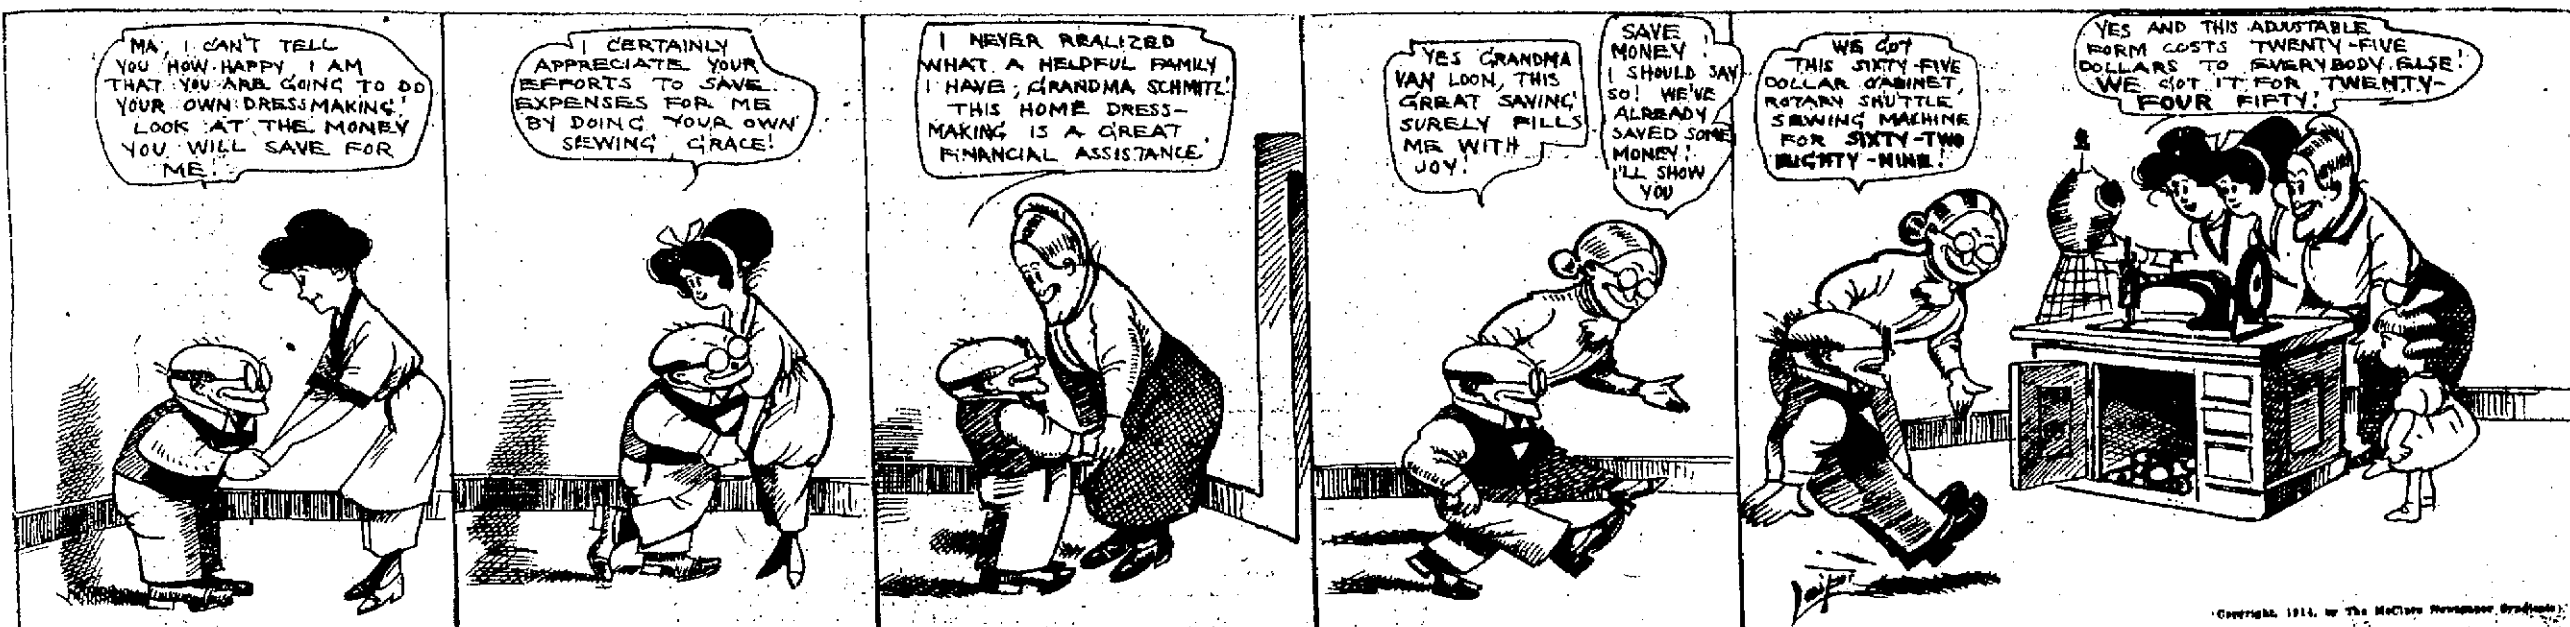

THE TABLE.

Flaked Fish Cakes—Make a cup-

ful of thick white sauce and stir into it a beaten egg yolk two cups of flaked or chopped cold fish and a teaspoonful of lemon juice. Add a very little chopped pepper if liked. Shape into cakes and fry in an open frying pan as you would fry salt fish cakes. Serve with French fried potatoes and pickled beets and decorate with parsley.

Lobster a la cream—Melt four tablespoonsful of butter and add to it one level tablespoonful of salt and a few grains of cayenne. Pour in a cupful of this cream, and when the sauce has cooked, add the meat from a good sized lobster, first cutting the meat into cubes. At the end, just before serving, add a beaten egg and two tablespoonsful of Madeira wine. Tomato Rarebit—Mix in a saucepan over the stove half a pound of crumbled cheese, a teaspoonful of Worcestershire sauce, a saltspoonful of dry mustard, half a cupful of

DOINGS OF THE VAN LOONS—So Far Their Saving Won't Overburden Father With Wealth

## The Last Shot

By  
FREDERICK PALMER

(Copyright, 1914, by Charles Scribner's Sons)  
"You stake your life!" repeated the premier with slow emphasis.  
"I do," said Westering. "Yes, my life. We cannot fail!"  
"Then it will be war, if the people want it!" said the premier. "I shall not resist their desire!" he added in his official manner, at peace with his conscience.

Partow was a great brain set on an enormous body. Partow's eyes had the fire of youth at sixty-five, but the pendulous flesh of his cheeks was pasty. Jealousy and faction had endeavored for years to remove him from his position at the head of the army on account of age. New governments decided as they came in that he must go, and they went out with him still in the saddle.

Let officers apply themselves with conspicuous energy and they heard from a general Partow; let officers only keep step and free of courts martial, and they heard from a merciless taskmaster. Peculiarly human, peculiarly dictatorial, dynamic, and inscrutable was Partow, who never asked any one under him to work harder than himself.

Lanstron appeared in the presence of Jove shortly after eight o'clock the next morning after he left La Tir. Jove rolled his big head on his short neck in a nod and said:

"Late!"  
"The train was late, sir," Lanstron replied, "and I have some news about our thousandth chance."

"Hm-m! What is it?" asked Partow. When Lanstron had told his story, Partow worked his lips in a way he had if he were struck by a passing reflection which might or might not have a connection with the subject in hand.

"Strange about her when you consider who her parents were!" he said. "But you never know. Hm-m! Why don't you sit down, young man?"

"The way that the Grays gave out our dispatch convinces me of their intentions," Partow said. "Their people are rising to it and ours are rising in answer. The Grays have been transferring regiments from distant provinces to their frontier because they will fight better in an invasion. We are transferring home regiments to our frontier because they will fight for their own property. By Thursday you will find that open mobilization on both sides has begun."

"My department is ready," said Lanstron, "all except your decision about press censorship."

"A troublesome point," responded Partow. "I have procrastinated because two definite plans were fully worked out. It is a matter of choice between them: either publicity or complete secrecy. You know I am no believer in riding two horses at once. My mind is about made up; but let me hear your side again. Sometimes I get conviction by probing another man's."

Lanstron was at his best, for his own conviction was intense.  
"Of course they will go in for secrecy; but our case is different," he began.

Partow settled himself to listen with the gift of the organizer who draws from his informant the brevity of essentials.

"I should take the people into our confidence," Lanstron proceeded. "I should make them feel that we were one family fighting for all we hold dear against the invader. If our losses are heavy, if we have a setback, then the inspiration of the heroism of those who have fallen and the danger of their own homes feeling the foot of the invader next will impel the living to greater sacrifices. For the Grays are in the wrong. The moral and the legal right is with us."

"And the duty of men like you and me, chosen for the purpose," said Partow, "is worthily to direct the courage that goes with moral right. The overt act of war must come from them by violating our frontier, not in the African jungle but here. Even when the burglar fingers the window-sash

we shall not fire—no, not until he enters our house. When he does, you would have a message go out to our people that will set them quivering with indignation."

"Yes, and I would let the names of our soldiers who fall first be known and how they fell, their backs to their frontier homes and their faces to the foe."

"Our very liberality in giving news will help us to cover the military secrets which we desire to preserve," Partow said, with slow emphasis. "We shall hold back what we please, confident of the people's trust. Good policy that, yes! But enough! Your orders are ready, in detail, I believe. You have nothing to add?"

"No, sir, nothing; at least, not until war begins."

"Very well. We shall have the orders issued at the proper moment," concluded Partow. "And Westering is going to find, he proceeded after a thoughtful pause, 'that a man is ready to die fighting to hold his own threshold than fighting to take another man's. War is not yet solely an affair of machinery and numbers. The

strain, you are to say so to me and I give you my word that I shall let you take charge."

Lanstron was too stunned to speak for a moment. The arrangement seemed a hideous joke; a refinement of cruelty inconceivable. It was expecting him to tell Atlas that he was old and to take the weight of the world off the giant's shoulders.

"Have you lost your patriotism?" demanded Partow. "Are you afraid? Afraid to tell me the truth? Afraid of duty? Afraid in your youth of the burden that I bear in age?"

"His fingers closed in on Lanstron's with such force that the grip was painful. 'Promise!' he commanded. 'I promise!' Lanstron said with a shudder.

"That's it! That's the way! Partow declared with change of tone, and he rose from his chair with a spring that was a delight to Lanstron in its proof of the physical vigor so stoutly denied. 'We have a lot to say to each other today,' he added; 'but first I am going to show you the whole bag of tricks.'

His arm crooked in Lanstron's, they went along the main corridor of the staff office and entered a vault having a single chair and a small table in the center and lined by sections of numbered pigeonholes, each with a combination lock. At the base of one section was a small safe. It was not the first time that Lanstron had been in this vault. He had the combination of two of the sections of pigeonholes, aerostatics and intelligence. The rest belonged to other divisions.

"The safe is my own, as you know. No one opens it; no one knows what is in it but me," said Partow, taking from it an envelope and a manuscript, which he laid on the table. "There you have all that is in my brain—the whole plan. The envelope contains the combinations of all the pigeonholes, if you wish to look up any details."

"Thank you!" Lanstron half whispered. It was all he could think of to say.

"And you will find that there is more than you thought, perhaps; the reason why I have fought hard to remain chief of staff; why—"

Partow continued in a voice that had the sepulchral uncanniness of a threat long nursed under breaking free of the bondage of years within the sound-proof walls. "But—" he broke off suddenly as if he distrusted even the security of the vault. "Yes, it is all there—my life's work, my dream, my ambition, my plan!"

Lanstron heard the lock slide in the door as Partow went out and he was alone with the army's secrets. As he read Partow's firm handwriting, many parts fell together, many moves on a chessboard grew clear. His breath came faster, he bent closer over the table, he turned back pages to go over them again. Every sentence dropped home in his mind like a bolt in a socket. Unconscious of the passage of time, he did not need the door open or realize Partow's presence until he felt Partow's hand on his shoulder.

"I see that you didn't look into any of the pigeonholes," the chief of staff observed.

Lanstron pressed his fingertips on the manuscript significantly.

"No. It is all there!"

"The thing being to carry it out!" said Partow. "God with us!" he added devoutly.

(TO BE CONTINUED.)

---AND HE DID

I'M GOING TO PULL AUNT JULIA'S HAIR!

AND HE DID—

Partow was at his best, for his own conviction was intense.

"Of course they will go in for secrecy; but our case is different," he began.

Partow settled himself to listen with the gift of the organizer who draws from his informant the brevity of essentials.

"I should take the people into our confidence," Lanstron proceeded.

"I should make them feel that we were one family fighting for all we hold dear against the invader. If our losses are heavy, if we have a setback, then the inspiration of the heroism of those who have fallen and the danger of their own homes feeling the foot of the invader next will impel the living to greater sacrifices. For the Grays are in the wrong. The moral and the legal right is with us."

"And the duty of men like you and me, chosen for the purpose," said Partow, "is worthily to direct the courage that goes with moral right. The overt act of war must come from them by violating our frontier, not in the African jungle but here. Even when the burglar fingers the window-sash

we shall not fire—no, not until he enters our house. When he does, you would have a message go out to our people that will set them quivering with indignation."

"Yes, and I would let the names of our soldiers who fall first be known and how they fell, their backs to their frontier homes and their faces to the foe."

"Our very liberality in giving news will help us to cover the military secrets which we desire to preserve," Partow said, with slow emphasis.

"We shall hold back what we please, confident of the people's trust. Good policy that, yes! But enough! Your orders are ready, in detail, I believe. You have nothing to add?"

"No, sir, nothing; at least, not until war begins."

"Very well. We shall have the orders issued at the proper moment," concluded Partow.

"And Westering is going to find, he proceeded after a thoughtful pause, 'that a man is ready to die fighting to hold his own threshold than fighting to take another man's. War is not yet solely an affair of machinery and numbers. The

strain, you are to say so to me and I give you my word that I shall let you take charge."

Lanstron was too stunned to speak for a moment. The arrangement seemed a hideous joke; a refinement of cruelty inconceivable. It was expecting him to tell Atlas that he was old and to take the weight of the world off the giant's shoulders.

"Have you lost your patriotism?" demanded Partow. "Are you afraid? Afraid to tell me the truth? Afraid of duty? Afraid in your youth of the burden that I bear in age?"

"His fingers closed in on Lanstron's with such force that the grip was painful. 'Promise!' he commanded. 'I promise!' Lanstron said with a shudder.

"That's it! That's the way! Partow declared with change of tone, and he rose from his chair with a spring that was a delight to Lanstron in its proof of the physical vigor so stoutly denied. 'We have a lot to say to each other today,' he added; 'but first I am going to show you the whole bag of tricks.'

His arm crooked in Lanstron's, they went along the main corridor of the staff office and entered a vault having a single chair and a small table in the center and lined by sections of numbered pigeonholes, each with a combination lock. At the base of one section was a small safe. It was not the first time that Lanstron had been in this vault. He had the combination of two of the sections of pigeonholes, aerostatics and intelligence. The rest belonged to other divisions.

"The safe is my own, as you know. No one opens it; no one knows what is in it but me," said Partow, taking from it an envelope and a manuscript, which he laid on the table. "There you have all that is in my brain—the whole plan. The envelope contains the combinations of all the pigeonholes, if you wish to look up any details."

"Thank you!" Lanstron half whispered. It was all he could think of to say.

"And you will find that there is more than you thought, perhaps; the reason why I have fought hard to remain chief of staff; why—"

Partow continued in a voice that had the sepulchral uncanniness of a threat long nursed under breaking free of the bondage of years within the sound-proof walls. "But—" he broke off suddenly as if he distrusted even the security of the vault. "Yes, it is all there—my life's work, my dream, my ambition, my plan!"

Lanstron heard the lock slide in the door as Partow went out and he was alone with the army's secrets. As he read Partow's firm handwriting, many parts fell together, many moves on a chessboard grew clear. His breath came faster, he bent closer over the table, he turned back pages to go over them again. Every sentence dropped home in his mind like a bolt in a socket. ## THE WORLD SET FREE

Europe's Armageddon and the Last War

By H. G. WELLS

Copyright, 1914, by H. G. WELLS

"The things are confoundedly noiseless," said the king. "It's like being stalked by lean white cats."

He peered again. "That fellow is watching us," he said.

And then suddenly he gave way to panic. "Pestovitch," he said, clutching his minister's arm, "they are watching us. I'm not going through with this. They are watching us. I'm going back."

Pestovitch remonstrated. "Tell him to go back," said the king, and tried to open the window. For a few moments there was a grim struggle in the automobile; a grapping of wrists and a blow. "I can't go through with it," repeated the king. "I can't go through with it."

"But they'll hang us," said Pestovitch.

"Not if we were to give up now; not if we were to surrender the bombs. It is you who brought me into this."

At last Pestovitch compromised. There was an him perhaps half a mile from the farm. They could alight there and the king could get brandy and rest his nerves for a time, and if he still thought it to go back he could go back.

"See," said Pestovitch, "the light has gone again."

The king peered up. "I believe he's following us without a light," said the king.

In the little old dirty inn the king hung doubtful for a time and was for going back and throwing himself on the mercy of the council. "If there is a council," said Pestovitch. "By this time your bombs may have settled it."

"But if so these infernal aeroplanes would go."

"They may not know yet."

"But Pestovitch, why couldn't you do all this without me?"

Pestovitch made no answer for a moment. "I was for leaving the bombs in their place," he said at last and went to the window. About their conveyance shone a circle of bright light. Pestovitch had a brilliant idea. "I will send my secretary out to make a kind of dispute with the driver, something that will make them watch up above there. Meanwhile you and I and Peter will go out by the back way and up by the hedges to the farm."

It was worthy of his subtle reputation, and it answered passing well.

In ten minutes they were tumbling over the wall of the farmyard, wet, muddy and breathless, but unobserved. But as they ran toward the barns the king gave vent to something between a groan and a curse, and all about them shone the light—and passed.

But had it passed at once or lingered for just a second?

"It didn't see us," said Peter.

"I don't think they saw us," said the king, and stared as the light went swooping up the mountain side, hung for a second about a hayrick and then came pouring back.

"Into the barn!" cried the king. He brushed his shin against something, and then all three men were inside the huge steel girded barn in which stood the two motor hay lorries that were to take the bombs away.

Peter, had brought the lorries thither in daylight. They had the upper half of the loads of hay thrown off, ready to cover the bombs, as soon as the king should show the hiding place.

"There's a sort of pit here," said the king. "Don't light another lantern. This key of mine releases a ring."

For a time scarcely a word was spoken in the darkness of the barn. There was the sound of a slab being lifted and then of feet descending the ladder into a pit. Then whispering and then heavy breathing as Kurt came struggling up with the first of the hidden bombs.

"We shall do it yet," said the king. And then he gasped. "Curse that light. Why the name of heaven didn't we shut the barn door?" For the great door stood wide open, and all the empty, lifeless yard outside and the door and six feet of the floor of the barn were in the blue glare of an inquiring searchlight.

"Shut the door, Peter," said Pestovitch.

"No!" cried the king, too late, as Peter went forward into the light. "Don't show yourself!" cried the king. Kurt made a step forward and plucked his brother back. For a time all five men stood still. It seemed that light would never go; and then abruptly it was turned off, leaving them

blinded. "Now," said the king uneasily, "now shut the door!"

"Not completely," cried Pestovitch. "Leave a chink for us to go out by."

It was not work shifting those bombs, and the king worked for a time like a common man. Kurt and Abel carried the great things up, and Peter brought them to the carts, and the king and Pestovitch helped him to place them among the hay. They made as little noise as they could.

"Sh!" cried the king. "What's that?" But Kurt and Abel did not hear and came blundering up the ladder with the last of the load.

"Sh!" Peter ran forward to them with a whispered remonstrance. Now they were still.

The barn door opened a little wider, and against the dim blue light outside they saw the black shape of a man.

"Any one here?" he asked, speaking in an Italian accent.

The king broke into a cold perspiration. Then Pestovitch answered. "Only a poor farmer loading hay," he said and picked up a huge hay fork and went forward softly.

"You load your hay at a very bad time and in a very bad light," said the man at the door, peering in. "Have you no electric light here?"

Then suddenly he turned on an electric torch, and as he did so Pestovitch sprang forward. "Get out of my barn!" he cried and drove the fork full at the intruder's chest. He had a vague idea that so he might stab the man to silence. But the man shouted loudly as the prongs pierced him and drove him backward, and instantly there was a sound of feet running across the yard.

"Bombs!" cried the man upon the ground, struggling with the prongs in his hand, and as Pestovitch staggered forward into view with the force of his own thrust he was shot through the body by one of the two newcomers.

The man on the ground was badly hurt, but plucky. "Bombs!" he repeated and struggled up into a kneeling position and held his electric torch full upon the face of the king. "Shoot them!" he cried, coughing and spitting blood, so that the halo of light round the king's head danced about.

For a moment in that silencing circle of light the two men saw the king kneeling in the cart and Peter on the barn floor beside him. The old fox looked at them sideways—snared, a white faced evil thing. And then as with a faltering suicidal heroism, he leaned forward over the bomb before him they fired together and shot him through the head.

The upper part of his face seemed to vanish.

"Shoot them!" cried the man who had been stabbed. "Shoot them all!"

And then his light went out, and he rolled over with a groan at the feet of his comrades.

But each carried a light of his own, and in another moment everything in the barn was visible again. They shot Peter even as he held up his hand in sign of surrender.

Kurt and Abel at the head of the ladder hesitated for a moment and then plunged backward into the pit. "If we don't kill them," said one of the sharpshooters, "they'll blow us to pieces. They're gone down that hatchway. Come!"

"Here they are! Hands up, I say! Hold your light while I shoot."

It was still quite dark when his ratchet and Firmán came together and told the ex-king Egbert that the business was settled.

He started up into a sitting position on the side of his bed.

"Did he go out?" asked the ex-king. "He is dead," said Firmán. "He was shot."

The ex-king reflected. "That's about the best thing that could have happened," he said. "Where are the bombs? In that farmhouse on the opposite hillside? Why, the place is in sight! Let

IT'S GREAT FOR BALKY BOWELS AND STOMACHS.

We want all people who have chronic stomach trouble or constipation, no matter of how long standing, to try one dose of May's Wonderful Stomach Remedy—one dose will convince you. This is the medicine so many of our local people have been taking with surprising results. The most thorough system cleanser we ever sold. May's Wonderful Stomach Remedy is now sold here by all druggists.

us go. I'll dress. Is there any one in the place, Firmán, to get us a cup of coffee?"

Through the hungry twilight of the dawn the ex-king's automobile carried him to the farmhouse, where the last rebel king was lying among his bombs. The rim of the sky flashed, the east grew bright and the sun was just rising over the hills when King Egbert reached the farmyard. There he found the hay lorries drawn out from the barn with the dreadful bombs still packed upon them. A couple of score of aviators held the yard, and outside a few peasants stood in a little group and stared, ignorant as yet of what had happened. Against the stone wall of the farmyard five bodies were lying neatly side by side, and Pestovitch had an expression of surprise on his face, and the king was chiefly identifiable by his long white hands and his blond mustache. The wounded aeronaut had been carried down to the inn. And after the ex-king had given directions in what manner the bombs were to be taken to the new special laboratories above Zurich, where they could be unpacked in an atmosphere of chlorine, he turned to these five still shapes. Their five pairs of feet stuck out with a curious stiff uniformity.

"What else was there to do?" he said in answer to some internal protest.

"I wonder, Firmán, if there are any more of them?"

"Bombs, sir?" asked Firmán. "No, such things."

(TO BE CONTINUED.)

**Dinner Stories**

Ben Foster was noted for his shiffling. If it had not been for his wife he would not have done a stroke

of work on his little farm and garden. It was all his wife could do to get him to work, for he preferred to sit and read all day.

One evening, after he had been reading French history with deep interest, he closed the book and said to his wife: "Do you know, Maria, what I'd do if I had been Napoleon?"

"Oh, yes, I know well enough," his wife responded. "You'd have settled

right down on a farm in Corsica and let it run itself."

"Yes, darling," said Mr. Newlywed, "we can get along without a piano, but we must have a few tons of coal put in for the winter, and I don't really know how we can afford it."

"Why, I'll tell you what we can do," replied Mrs. Newlywed, who has been reared in luxury. "We will save money on the coal bill by spending our winter in Florida."

## TIME TO PLAN NOW FOR ALFALFA CROP

Prof. West Gives Nine Reasons Why  
Alfalfa Should Be Raised—Advocates Fall Plowing.

(Allen B. West.)

Now is the time to plan for the growing of alfalfa next year, and alfalfa should be raised on practically every farm in the county instead of only a few farms as at present, because:

- First, it is the best forage crop known.
- Second, it is adapted to all kinds of soils, provided the soil is not too acid, which latter condition may be easily remedied.
- Third, it will withstand drought.
- Fourth, it has passed the experimental stage at Wisconsin, and enough is known about the methods of growing it to insure success if methods are followed.
- Fifth, it improves the soil.
- Sixth, it is a very profitable crop, either as a money crop or a crop for farm consumption.
- Seventh, it is feed hills in half for the dairyman.
- Eighth, it is good for all kinds of stock.
- Ninth, to be an up-to-date farmer one must raise alfalfa. Practically all the prize-winning farms in the farm management contest grew alfalfa.

Fall Plowing Best for Alfalfa.

One reason for plowing for alfalfa now is the fact that fall plowing is best for this crop. If the ground is plowed in the spring the soil is likely to be too loose for good germination. The seed bed should be well firmed in order that the seed and later the tiny rootlets may have proper contact with the soil to sprout and grow. Fall plowing is also important from the standpoint of weed eradication, says W. W. Weir of the Wisconsin experiment station.

Weeds must be quite thoroughly killed out before alfalfa will do its best and this is more easily accomplished by fall plowing. By disking the field in the spring when the weeds seeds turned under in the fall begin to come up, the farmer can get rid of two or three crops of these pests before the alfalfa is seeded.

Farmers who intend to plant alfalfa on acid soil may benefit especially by fall plowing. Such soil must be treated with lime to correct the acidity and this can best be done in winter, for then, if the land is plowed, the lime can be laid directly from the cars and placed on the field. If the farmer has land that has been in corn or potatoes this year and has been kept clean, it will not be necessary to plow this for alfalfa. It may be disked in the spring and will then be in good condition for seeding.

We are looking for a great boom in alfalfa in Rock county next year. Let us get into the game early and stick to it until Rock county leads the state in this banner crop.

## BROOKLYN

Brooklyn, Sept. 23.—Miss Mabel Peterson returned Saturday from a three weeks' visit in Chicago.

Mr. and Mrs. Elmer Conkings and baby of Waukesha have rented rooms

## WOMEN CAN HARDLY BELIEVE

How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eldon, Mo. — "I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without

enduring cutting and drawing pains down my right side which increased every month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it? Lydia E. Pinkham Medicine Co., Lynn, Mass.

## A GUARANTEED RELIEF FOR ASTHMA

"I want every Asthma sufferer in Janesville to try my treatment entirely at my risk," Dr. Rudolph Schiffmann announces. "Go to Smith's Pharmacy, 14 West Milwaukee street, and get a 30-cent package of my Asthma and should it fail to give instant relief, these druggists will cheerfully refund your money without any question whatever." The doctor says further, "No matter how violent the attack, how obstinate the case, or what else has failed, my Asthma or Asthma Cigarettes will give instant relief, usually in 10 seconds but always within 15 minutes. Hundreds of unselected to 'monials abundantly prove what my remedy has done, and I know it will do the same for others. I am so positively certain that it will produce instant relief and will be found the best remedy ever used that I have no fears of authorizing these druggists to give this guarantee or of their being called upon for the refunding of money." No risk whatever is run in buying this remedy under this positive guarantee.

Persons living elsewhere will be supplied under the same guarantee by their local druggist or direct by Dr. R. Schiffmann, St. Paul, Minn.

at the Home Hotel. Mr. Cookins will be engaged in work at the creamery. Nathan L. Burham of Gotham, called on friends in town last week.

Miss Anna Smith spent Sunday with friends in Madison.

Mr. J. M. Stokes was a Footville visitor Friday.

Miss Rheda Jennings spent Sunday with friends in Madison.

Miss Maude Canfield of Albany has been a guest at the J. W. Farnsworth home.

Mr. and Mrs. F. A. Beyers and family spent Sunday at the John Stokes home.

Mr. and Mrs. Arthur Hansen have moved into the house owned by Frank Yarnwood.

Gordon White and Otis O'Brien spent Sunday in Madison.

Hurst Barnett has entered Lawrence college at Appleton.

Miss G. E. Walte was an Evansville visitor Saturday.

Edwin Sargeant of Los Angeles, Cal., has been spending a few days in town.

Miss Lillian Sargeant and Miss Dorothy Ray of Chicago.

Miss Ethel Smith returned last week from a visit at the home of her brother in Woodstock, Ill.

## SHOPIERE

Shopiere, Sept. 23.—The lecture Friday evening, given by Dr. Eaton of Madison, was well attended.

Miss Minnie Klingbeil spent over Sunday with Miss Kate Crall at Genoa.

Mr. and Mrs. John Woodbury of Alden, and Mr. and Mrs. Burt Woodbury and Martha of Hobron, motored to this place Sunday afternoon to visit relatives.

Dr. Eaton and family and Mrs. Buck motored to Delavan lake Sunday afternoon.

Mr. and Mrs. Green are entertaining the former's mother of Walworth.

Mr. Goodell is ready for business in J. Shmeil's blacksmith shop.

Charles Butzin is in Chicago this week.

Mr. and Mrs. Roy Manley and children of Beloit, spent over Sunday at J. Shmeil's.

Mrs. S. K. Sweet is visiting her son, Bert, and wife, at St. James, Minn.

Mr. and Mrs. Sam Feirn and children of Janesville, spent over Sunday at J. Shmeil's.

W. B. Black spent last week at the state fair.

The Royal Neighbors will meet Oct. 1st at Mrs. Cleland's.

The Beavers will meet Monday evening, Sept. 28th at Tom Atkinson's.

Mr. and Mrs. Will Knipschield and children of Beloit, spent over Sunday at George Kline's.

The new M. E. pastor, Mr. Moyle, occupied the pulpit Sunday morning.

His family will arrive some time this week.

Mrs. Currier spent Sunday at Janesville.

Mr. and Mrs. Arthur Clark and Mrs. Butler and Luella, motored to Delavan and Williams Bay Sunday.

The Sunday school and mothers of the cradle roll department of the Congregational church were pleasantly entertained Friday afternoon at the church parlors.

Mr. Dockstead has been under the doctor's care of late.

Ed. Klingbeil of Beloit, and Mary of Janesville, spent Sunday at their home here.

Mrs. Allen left Tuesday to visit her daughter, Mrs. Smith, near Duluth.

## FOOTVILLE

Footville, Sept. 23.—Frank Lentz and family have returned from Milwaukee where they attended the state fair.

Miss Belle Brown spent Sunday in Albany.

Mrs. Ed. Keso is very sick.

Mr. J. Trevors and wife returned Monday after attending the state fair.

Mrs. William Henning was a visitor here Tuesday.

Mrs. Marjory Black and daughter have returned to their home near Rock.

Mrs. Harry Langdon is on the sick list.

The Royal Neighbors have rented the old telephone office and will hold their meetings there this winter.

Miss Libbie Ogden has returned from visiting at the home of her nephew in Magnolia.

Mrs. Nettie Rowley of Beloit visited her mother, Mrs. Walter Honeysett, on Tuesday.

Mrs. Maud Lowry goes to Sheboygan, Thursday, to assist in Royal Neighbor work.

Paul Mattingly went to Madison, Friday and returned Tuesday.

## ORFORDVILLE

Orfordville, Sept. 24.—William Ross, former county superintendent of schools of Rock county, was in the village for a short time on Wednesday, greeting old friends. His present home is in Oregon.

Elmer Burnett is moving into the house that Wesley Jones recently purchased of K. E. Skallerud.

Seymour Johnson of Albany, transacted business in the village on Wednesday.

Mrs. Martha Wolff of Janesville came to Orfordville on Monday morning and transacted business, returning in the afternoon.

L. W. Terry of Brodhead visited the village on Wednesday for a short time.

Rev. W. C. Deniston of Bayfield, is in the village for a short time, shaking hands with old friends.

The light company commenced excavating for the foundation of their power house on Wednesday afternoon. They hope to get the plant in readiness to operate by December 1st.

Theodore Olson of Brodhead transacted business in Justice Taylor's court on Wednesday.

## PORTER

Porter, Sept. 23.—Mr. and Mrs. Frank Boss and family spent Sunday at the home of Martin Croak in Green County.

Karl Becker, who is attending German school in Edgerton, spent over Sunday at home.

Mr. and Mrs. A. Viney of Edgerton, spent Sunday at the home of E. Nelson.

Hans Hoakenson has treated his buildings to a new coat of paint, which adds very much to their general appearance.

Miss Vera Ross spent a few days at the G. W. Nichols home in Edgerton last week.

Two schools of Dunkirk, spent most of last week in this vicinity.

S. Dooley of Janesville, was a caller one day last week.

Miss Blanche Wheeler, who was injured last week, is getting along as well as can be expected.

## UTTER'S CORNERS

Utter's Corners, Sept. 22.—Mr. and Mrs. John Shields and Mr. and Mrs. S. W. May attended the funeral of their uncle, Mr. McArthur, in Janesville on Sunday.

Mrs. Fred Brockman and child of Wyoming arrived here last week for an indefinite visit at the home of her father, C. M. Sherman.

Roy Farnsworth sold sixteen high grade Holstein cows to T. Tibbets of Geneva, Friday, and delivered them at the stockyard in Whitewater on Monday.

Rev. G. R. Laurence, who will preach at Richmond and Utter's Corners, commenced his duties Sunday and made a very favorable impression on those who heard him.

Mr. and Mrs. J. M. meet with Mrs. J. M. Haag, Thursday, for an all day meeting as an election of officers will be held in connection with the regular work. A picnic dinner will be served.

Lawrence and Mildred Roe of Riceville, Iowa, are visiting their grandfather, H. J. Roe, and other relatives.

Miss Nellie Farnsworth was at Fond du Lac from Thursday until Monday attending the conference.

She went from there to Mayville on Monday and visited at the home of Rev. and Mrs. F. J. until Friday morning.

She was accompanied home by Mrs. Dunkley, who will visit here this week.

Arthur Teeshorn and Clifford Cleland visited in Chicago veterinary college last week.

Ruth Hadley has resumed her studies at the Whitewater Normal.

Lillian Haag, Evelyn Teeshorn, Edwin Haag, and Mrs. George H. Haag are attending the Whitewater high school and Esther and Erwin Schimmel the German school in Whitewater.

Mr. and Mrs. Roy Sherman and son, George, spent Saturday and Sunday with relatives in Fort Atkinson.

Mrs. A. F. Shields enjoyed a visit from her mother, Mrs. Kenyon, of Richmond Center, last week.

There was no school on Friday, Sept. 23rd, at the George Hull home.

Miss Bessie Howard of Geneseo has commenced on her third year as teacher in the school here.

Mrs. E. Shields of North Lima spent Sunday at the home of her son, Albert.

Mr. and Mrs. Roy Farnsworth and children spent a day very pleasantly with Mr. and Mrs. J. M. Haag.

Children at their home near Fort Atkinson recently.

A. V. Lurvey, Russell Freeman and De Witt Brown spent one day at the fall in Milwaukee last week.

Charles Wilson of Madison visited relatives here last week.

## COOKSVILLE

Cooksville, Sept. 23.—The hard rain last week Monday afternoon and night caused some damage to the new road, also the bridge east of town was washed out. A force of men are working on the road and it will soon be repaired. Never was the bridge so high.

Miss Etta Morgan is visiting in Spring Valley for a few weeks.

Jerry Armstrong has rented his tenant house to John Larson.

The teacher going to her home near Belleville, returning Sunday.

Jerry Armstrong had the misfortune to get a nail driven into his hand a good ways. He was near having been poisoned, but a good dressing and care from the doctor is helping. It is very bad yet.

Mrs. T. J. Van Wormer has been sick the last week with heart trouble, but is gaining now.

Mrs. Grace Miller from Milton and Mrs. Stella Miller from Stoughton, were callers on their many friends last Thursday.

Mrs. Blanche Tolles and Ella Morgan visited Evansville last Wednesday.

A few finished harvesting tobacco last week, and a number have from six to eight acres to put in.

J. H. Armstrong has purchased 40 acres near Leyden and will move there this fall. He will sell his place here.

Mr. and Mrs. Joe Porter and sons Joe and Alden, Mr. and Mrs. Charles Miller from Stoughton and Mrs. Electa Savage were visitors at Mr. and Mrs. U. S. Miller's at their cottage on Rock river near Newville last Sunday after a sumptuous dinner.

Mr. Miller took the party in his motor launch to visit the "Devil's Oven," and from there to Indian Ford and back just as the lights from the cottage were showing through the trees.

A most enjoyable day was spent, with melons to eat galore.

The Jetter took a ride with Lys Miller and wife last Monday to Koshkonong, Otter Creek and Milton Junction. At one stop at a good farm house, we were treated to sweet apples and new cider, which was unexpected this year, but highly enjoyed. Crops were fine and the farmers are now threshing and filling silos.

## FULTON

Fulton, Sept. 23.—Mrs. Grace Fessenden went to Black Earth on Tuesday to visit her sister, Mrs. Blanchard.

Mr. and Mrs. Charles Ziemann, Jr., spent part of last week with their son, Theodore, in Lake Mills.

Mrs. S. H. Bentley has returned to Chicago.

Ed. Wallin, who has been in Ohio and Michigan the past few weeks, returned home the first of the week.

On Sunday last he visited T. S. Biggar and family in Valeriville, Canada.

Rev. Cogswell, former pastor of this place, is up from Chicago, visiting his many friends here. He will fill the pulpit here Sunday.

Charles and Sidney Bentley and John Ziegler went for Tampa, Fla., last week where they will winter.

The school teachers and the school board met with O. P. Murvin on Tuesday evening to arrange for a course of domestic science and manual training in the state graded school here.

## Why Flowers Wilt.

Flowers wilt because of the collapse of the individual cells of which they are made up. They remain fresh as long as the pressure of fluid within and without the cells stays uniform.

## SCARY HE SPOKE.

Miss Cate—How do you manage to whistle through your fingers that day? I could never do it.

Mr. Admirer—(complimenting her small hands) "You do it, if you tried that your whole hand would slip into your mouth."

## CHARGES COMPANIES DELAYED BENEFITS

Crownhart Tells Liability Insurance Agents How Big Eastern Firms Balked Compensation Act.

(SPECIAL TO THE GAZETTE.)

White Sulphur Springs, W. Va., Sept. 24.—Speaking today before the International Association of Casualty and Surety Agents, C. H. Crownhart, chairman of the Wisconsin Commission of Wisconsin, laid down cold facts before the men who write workmen's compensation insurance. Incidentally, Mr. Crownhart announced that the state insurance commission does not favor Wisconsin's compensation act.

In speaking of the close connection of state administrations and private insurance companies in bringing about complete success under workmen's compensation, Mr. Crownhart stated that his charges that the large liability insurance companies of the east, working in a powerful combine, had taken the responsibility for the delayed success of workmen's compensation in America.

Companies Raise Rates.

"With the advent of compensation acts came a great opportunity to casualty insurance companies," said Mr. Crownhart. He then proceeded to tell how the insurance companies met the opportunity. He told how the companies in combination raised their rates to prohibit the passage of the manual of rates, said Mr. Crownhart, "came from the wise men of the east. A casual study of the analysis of the rates in the various states showed that the companies were raising their rates every particular. In other words, the companies' rates were based upon false promises. The industrial commission began an investigation and found that the 'mathematical precision' claimed for the rates by the companies was not 'mathematical precision at all, but actuarial guesswork. The industrial commission's investigation showed that the companies were raising their rates every particular. In other words, the companies' rates were based upon false promises. The industrial commission began an investigation and found that the 'mathematical precision' claimed for the rates by the companies was not 'mathematical precision at all, but actuarial guesswork. The industrial commission's investigation showed that the companies were raising their rates every particular. In other words, the companies' rates were based upon false promises. The industrial commission began an investigation and found that the 'mathematical precision' claimed for the rates by the companies was not 'mathematical precision at all, but actuarial guesswork. ## ROOSEVELT ENTERS ILLINOIS CAMPAIGN

COLONEL SCORES THE SULLIVAN-SHERMAN FACTIONS IN HIS SPEECH AT GALESBURG TODAY.

## HITS BLIND LOYALTY

Claims That Progressive Party Has Truly Followed the Principles of Lincoln—Urges Non-Partisanship.

Galesburg, Ill., Sept. 24.—Colonel Theodore Roosevelt began a two days campaign in Illinois today in behalf of Raymond Robinson, senatorial candidate of the progressive party of Illinois. It is his first political visit to the state since the campaign of 1912, and besides his address here today he is to speak at Springfield, Marion and East St. Louis before entering Indiana in the interests of former Senator Beveridge who is striving to return to the upper house in Washington as a progressive.

Whether he makes rear platform addresses at smaller towns will depend on the condition of his voice. In his address here Colonel Roosevelt deplored blind adherence to names rather than to principles. He said that talk of progressive return to either of the old parties was absurd. "One of the most mischievous manifestations of this habit of ours is the way in which the ordinary citizen—the good, decent citizen—tends to surrender his soul into the keeping of unscrupulous and conscienceless machine politicians on the theory that thereby he is being loyal to party ties," asserted the speaker.

Party Loyalty Fetish. "Slavery to the name," he continued, "is often the most lamentable effort of the machine politician to create an obstacle in the way of reality to ideals. The dead hand of all allegiance to a party name when the spirit that first formed the party is itself dead results in hampering beyond measure the effort to use parties as living instruments for the welfare of the people. It is this tendency to make a fetish of what he calls party loyalty on the part of the average good man who has not the time to think very deeply over the issue of the day, which is by far the most important factor in giving strength to the mere machine politician. The machine politician himself usually has not the smallest scruple concerning party loyalty, and has not a sentiment of any kind in connection with allegiance to his party. But he knows on the fact that his dupe, the good average citizen, does possess this scruple and feels this sentiment."

"In this State, for instance, Lord, how many times have I seen the non-partisan and most certainly a bipartisan phenomenon. The most prominent among the machine supporters of Mr. Sullivan who are now mortally afraid of the Senate on the Democratic ticket have been in the past the very men who have made a machine and other combinations out of the former wing of the Republican party. We have seen the same thing in New York and many other states. The machine leaders make the most impassioned appeal to the loyalty of the party in which they are in their own actions show not the slightest preference for one party over another, yet it is the fact that their appeal meets with some response in the soul of the average man that really enable them to dominate through the machine their own party organization. Their loyalty is to the party. Their appeal is to that spirit of loyalty to the party in which they themselves are totally deficient. Unfortunately the appeal is too often successful. The rank and file of those who follow them are misled, and are the slaves of terminology, the slaves of names. The average man has not the time to attend to minute details of party work, and he finds only too easy to substitute the declaration that he belongs to such a party and always votes that way, for the faithful and laborious performance of the work necessary to control his party."

Progressives Lincoln's Heirs. "At this moment the only way to be loyal to the principles of Abraham Lincoln is to follow him. Until he was a man of middle age, until he was well toward 50 years of age, Abraham Lincoln was a member of the Whig party. But he was loyal to principles and not to names, and when the Whig party ceased to be an instrument of value for the accomplishment of high ideals, Abraham Lincoln unhesitatingly left it and helped to form a new party. The men who are the true principles of Abraham Lincoln can thus be true only by adhering to the principles and practices of Lincoln, and leaving the party of their youth exactly as he left the party of his youth when that party ceased to be an instrument for serving the people."

"Our opponents ask you to be true to the party of Abraham Lincoln. I ask you to be true to the principles of Abraham Lincoln."

In Illinois the Colonel said that the worst scandals in connection with which such matters as the election of Lincoln to the Senate, or to the organization of the legislature in the interest of both machines, have all been scandals in which the members of both parties who now support Sullivan and Sherman have worked hand in hand "to the same evil end."

He added: "These bosses support one another and betray their own parties without the slightest hesitation when it is to their own interest."

Urges Non-Partisanship. "Now, all that I am asking of you plain citizens is that you should show non-partisan and intelligent devotion to the public good, exactly as the bosses and machine leaders act in an entirely non-partisan manner in passing measures against the interest of the people, such as a city gas bill or street railway bill. They act in an entirely non-partisan manner without any need to party lines. In sending to the senate a man like Mr. Lorimer, I ask you plain citizens to show the same non-partisan devotion to the same disregard for party lines, in serving the public interest, and in keeping private life the machine candidates of both the old parties who by their whole life have resented and typified the wrong type of political action, and who are the representatives and chiefs of organizations that have immensely profited by this method of treating the public interest."

Couldn't Land Him. "I admit that the architecture of this house is something fierce," said the agent, "but just see how handy the place is—only a stone's throw from the station." "I see it is," said Tompkins, wearily, "but I'm such a rotten shot it wouldn't be any satisfaction to me."

War Atlas—Cut the coupon from today's paper and bring it into the Gazette office with 17c, or by mail 19c.

## BEST CATTLE BRING BIG PRICES TODAY

ELGIN BUTTER PRICES QUOTED AT 29 CENTS

[BY ASSOCIATED PRESS.] Elgin, Ill., Sept. 21.—Elgin butter, 87 tubs, sold at 29 cents.

JANESVILLE RETAIL MARKET.

Straw, Corn, Oats: Straw, \$6.00@7.00; baled hay, \$10.00@12.00; loose, small demand; new oats, \$4.00@4.50; barley, \$1.00@1.30 per 100 lbs.; ear corn, \$2.00.

Mrs. Julia Kane of Plattville, was the guest of Mr. and Mrs. Andrew Douglas, and left on Wednesday.

Mrs. Marie Riese went to Janesville Wednesday to see her sister, Mrs. Markse, who is in the hospital.

Messrs. W. J. Smith and C. E. Skinner were passengers on Chicago Wednesday morning.

Miss Jessie Sherman and Mrs. Isaacs went Wednesday to Kilbourn for a short stay with relatives.

The M. E. Ladies Society will meet Friday afternoon with Mrs. Albert Broughton.

The Sub-Rosa club had a very interesting meeting Wednesday afternoon with Mrs. C. J. Lyons.

Mr. and Mrs. W. N. Cobb are attending the Elkhorn fair. Messrs. and Messdames Will Hahn and Sidney Stair were also there today.

Umbrella's Bent Handle Enables Possessor to Secure Greatest Amount of Protection.

When an umbrella is raised and being duty the most desirable place under its sheltering canopy is that occupied by the handle. The person making use of it is forced to use one side or the other, so that one side or the other is unduly exposed to the elements. In order to secure the greatest amount of efficiency from the apparatus, a Scotch American inventor has devised the umbrella with a jointed handle, as shown in the accompanying cut. It has been recently patented in this country. The handle of this

GETS THE UMBRELLA'S FULLEST SHIELDING.

umbrella is jointed so that when it is raised the center or tip is directly over the head of the person carrying it, while the handle is held in a perfectly normal and natural manner at a point near the body.

When it is desired to close the umbrella the jointed stick assumes a straightened position and is held so by the ribs of the umbrella, which are rolled tightly to it.

WITHIN PATIENT'S REACH Attachment for the Hospital Bed Saves Nurse's Footsteps.

Nurses say that the patient in the hospital bed makes a great deal of unnecessary trouble for the attendants by demanding attention that are unneeded. They have nothing else to do but think of themselves and they are constantly nagging that there are certain things which are necessary for their comfort.

When they cannot think of anything to ask for their comfort, in order that there shall be always within reach, more or less constant supply of water the device shown in the accompanying

cut has been invented. A framework secured to the head of the bed, carries a receptacle for water which is balanced by a weight so that water is always to be had by the patient by reaching for it and while there is a generous quantity at hand it is not necessary for the invalid to use any effort to secure or hold it. It is only necessary to tip the receptacle so that its contents will pour therefrom.

Read Gazette Want-Ags every day. Do not wait for somebody to tell you that he saw an ad in the 2 broadsheet which he thought might interest you.

Small Fire. Children playing with matches set fire to the bedding at the home of Mr. and Mrs. Ed Williams on the William Cortelison farm, Wednesday morning, causing only slight damage. The flames were extinguished with pails of water.

Mrs. Fred Noll of Gadsden, South Dakota, is the guest of Brodhead friends and relatives.

Mrs. Fannie Lewis left Wednesday morning for a trip to Erie and Bradford, Pa., to spend some time with relatives and old friends.

BRODHEAD LEAGUE HURLER BREAKS LEG TUESDAY

[SPECIAL TO THE GAZETTE.] Brodhead, Sept. 24.—Homer O'Carroll, Brodhead's well known baseball pitcher, met with an accident Tuesday evening that will lay him up for some weeks. In company with Otto Zwygart, he was returning from Monroe in an automobile. They attempted to pass a rig whose driver would not turn out and they were consequently thrown into a ditch. Mr. Zwygart was badly bruised but had no bones broken. They were brought to Brodhead and medical assistance at once procured and at present are doing well.

Small Fire. Children playing with matches set fire to the bedding at the home of Mr. and Mrs. Ed Williams on the William Cortelison farm, Wednesday morning, causing only slight damage. The flames were extinguished with pails of water.

Mrs. Fred Noll of Gadsden, South Dakota, is the guest of Brodhead friends and relatives.

Mrs. Fannie Lewis left Wednesday morning for a trip to Erie and Bradford, Pa., to spend some time with relatives and old friends.

Benedictional Kiss. It is the custom in many sections of the United States for the clergyman who performs the ceremony to kiss the bride. The kiss from the clergyman is a relic of the benedictional vax, which was a charm calculated to bring all marriages to a happy ending.

Thought on Patriotism. It is to be feared that the patriotism of this day has but little regard for such common things as individual economy and providence, although it is by the practise of such virtues only that the genuine independence of the industrial classes is to be secured.—Samuel Smiles.
